During World War II, Port Chicago was a

segregated naval munitions base on the outer shores of San Francisco Bay. Black seamen were required to load ammunition onto ships bound for the South Pacific under the watch of their white officers--an incredibly dangerous and physically challenging task. On July 17, 1944, an explosion rocked the base, killing 320 men--202 of whom were black ammunition loaders. In the ensuing weeks, white officers were given leave time and commended for heroic efforts, whereas 328 of the surviving black enlistees were sent to load ammunition on another ship. When they refused, fifty men were singled out and charged--and convicted--of mutiny. It was the largest mutiny trial in U.S. naval history. First published in 1989, *The Port Chicago Mutiny* is a thorough and riveting work of civil rights literature, and with a new preface and epilogue by the author emphasize the event's relevance today. In this groundbreaking interdisciplinary study, Loftis examines the artists who put a human face on the farmworkers' plight in California during the Great Depression, focusing on writer John Steinbeck, photographer Dorothea Lange, sociologist and author Paul Taylor, and journalist Carey McWilliams. Loftis probes the interplay between journalism and art in the 1930s, when both academics and artists felt an urgent need to be relevant in the face of enormous misery. The power of their work grew out of their personal involvement in both the labor struggles and the hardships endured by workers and their families. Steinbeck,

Lange, and the other artists and intellectuals in their circles created the public images of their times. Works such as *The Grapes of Wrath* or Lange's *Migrant Mother* actually helped mold public opinion and form government policies. Even today these works remain icons in our shared perception of that era. Loftis helps us understand why this art still seems the truest representation of those desperate times, three-quarters of a century later. The importance of Colonel Edward M. House in twentieth-century American foreign policy is enormous: from 1913 to 1919 he served not only as intimate friend and chief political adviser to President Woodrow Wilson but also as national security adviser and senior diplomat. Yet the relationship between House and the president ended in a quarrel at the Paris peace conference of 1919 largely because of Mrs. Wilson's hostility to House and House has received little sympathetic historical attention since. This extensively researched book reintroduces House and clearly establishes his contributions as one of the greatest American diplomats. A kingmaker in Texas politics, House joined Wilson's campaign in 1912 and soon was traveling through Europe as the president's secret agent. He visited Europe repeatedly during World War I and played a major part in drafting Wilson's Fourteen Points and the Covenant of the League of Nations. He tried to stop the war before it began, and to end it by negotiation after it had started. His greatest achievement was to lock both sides into an

armistice based on American ideals." The History of Archaeology: An Introduction provides global coverage with chapters devoted to particular regions of the world. The regional approach allows readers to understand the similarities and differences in the history of and approach to archaeology in various parts of the world. Each chapter is written by a specialist scholar with experience of the region concerned. Thus the book focuses on the earliest beginnings of archaeology in different parts of the world, and how it developed from being a pastime for antiquarians and collectors to a serious attempt to obtain information about past societies. Woven into the text are various boxes that explore key archaeologists, sites and important discoveries in the history of archaeology enriching the story of the discipline's development. With such far ranging coverage, including an exploration of the little covered development of Russian and Chinese archaeology, The History of Archaeology is the perfect introduction to the history of archaeology for the interested reader and student alike. Godfather to Mussolini, national hero of Italy and the WWI irredentist movement, literary icon of Joyce and Pound, lover of actress Eleonora Duse: here is Lucy Hughes-Hallett's extraordinary biography of Gabriele d'Annunzio, poet, bon vivant, harbinger of Italian fascism. Gabriele d'Annunzio was Italy's premier poet at a time when poetry mattered enough to trigger riots. A brilliant self-publicist in the first age of mass

media, he used his fame to sell his work, seduce women, and promote his extreme nationalism. In 1915 d'Annunzio's incendiary oratory helped drive Italy to enter the First World War, in which he achieved heroic status as an aviator. In 1919 he led a troop of mutineers into the Croatian port of Fiume and there a delinquent city-state. Futurists, anarchists, communists, and proto-fascists descended on the city. So did literati and thrill seekers, drug dealers, and prostitutes. After fifteen months an Italian gunship brought the regime to an end, but the adventure had its sequel: three years later, the fascists marched on Rome, belting out anthems they'd learned in Fiume, as Mussolini consciously modeled himself after the great poet. At once an aesthete and a militarist, d'Annunzio wrote with equal enthusiasm about Fortuny gowns and torpedoes, and enjoyed making love on beds strewn with rose petals as much as risking death as an aviator. Lucy Hughes-Hallett's stunning biography vividly recreates his flamboyant life and dramatic times, tracing the early twentieth century's trajectory from Romantic idealism to world war and fascist aggression. Between 1623 and 1960 (the date of the last execution as of 1999), Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island and Vermont legally put to death more than 700 men and women for a wide variety of capital crimes ranging from army desertion to murder. This is a companion volume to Legal Executions in New York State and Legal Executions in New Jersey, both

published by McFarland. It is comprised of chronologically arranged biographical entries for the executed persons. Each entry gives personal data on the executed person, including age, ethnicity, and gender, as well as a detailed account of the crime for which he or she was sentenced to death and information on the place and method of execution. Fully indexed. In June 1948, 27-year-old petty criminal Caryl Chessman was sentenced in California on two counts of sexual assault, receiving two death sentences as punishment in a case that remains one of the most baffling episodes in American legal history. Maintaining his innocence of these crimes, Chessman lived in Cell 2455, a four-by-ten foot space on Death Row in San Quentin for the twelve years between his sentencing and eventual execution. He spent this time, punctuated by eight separate stays of execution, writing this memoir — a moving and pitiless account of his life in crime and the early life that produced it. Chessman's clarity of mind and ability to bring his thoughts directly to the page, even within the stifling walls of San Quentin, help make this work the most literate and authentic expose ever written by a criminal about his crimes. Winner of the J. B. Jackson Prize for the Best Book in Cultural Geography! Chiura Obata was one of more than 100,000 Japanese Americans forcefully relocated from their homes, work, and communities to the stark barracks of desert internment camps during World War II. As an artist faithfully recording the world around him, Obata's work

from this period gives us a view into the camps that is at once honest and strikingly lyrical. Topaz Moon brings together more than 100 paintings and sketches from Obata's internment period, from the stables at Tanforan, California, to the barracks in Topaz, Utah. Edited by his granddaughter Kimi Kodani Hill, these images are accompanied by a text that draws heavily upon the letters of Obata and his wife, Haruko, family documents, and interviews with family and friends. Andrew Hamilton grew up in a family where his father was a known womanizer. He watched his father disrespect his mother on a consistent basis in the presence of friends and family. Jesse Hamilton, Andrew's father, was not much of a role model to Andrew or his siblings. He never spent a lot of time with them or provided for them. But he had plenty of time to spend with other women and hang out with his drinking buddies. His family was second class citizens and was not top priority to him. Doreen Hamilton, Andrew's mother, was a church-going Christian who tried to keep her family together. The harder she tried the more Jesse put her down. She could not do anything right. Doreen's family and friends tried to get her to leave him, but she was determined to stick with her marriage for better or for worse. Andrew took up football to pass the time away while in school and became one of the best running backs to come out of high school. He was an all-state football star. He was exceptionally good, and major universities were interested in signing him to a full athletic

football scholarship. His father was always busy doing other things, so he never came to any of his games. Jesse thought it was a waste of time and boring. Andrew vowed that he would never be like his father. He did not want to be the type of man who was a womanizing dog that did not care about anybody but himself. He promised that he would never disrespect or mistreat women. But he became a product of the environment that his father introduced him to. Andrew inherited his father's womanizing player ways and became what he hated most about him hence "A Player's Inheritance." This study of plutocracy and politics in New York City in the nineteenth and early twentieth centuries poses the following central questions: What have been the consequences of the relatively rapid democratization in America for activities and attitudes of the wealthy classes and what transformations have occurred in the political and social attitudes of the wealthier classes as a result of the increasing lower-class pressures? Gabriel Almond conducted the research for his University of Chicago dissertation in 1935-1936 in New York City. The Great Depression supplied the background events and themes. Klemens von Klemperer's scholarly and detailed study uncovers the beliefs and activities of numerous individuals who fought against Nazism within Germany, and traces their many efforts to forge alliances with Hitler's opponents outside the Third Reich. -;Klemens von Klemperer's scholarly and detailed study uncovers the beliefs and

Measured by conventional standards of diplomacy, the foreign ventures of the German Resistance ended in failure. The Allied agencies, notably the British Foreign Office and the US State Department, were ill prepared to deal with the unorthodox approaches of the Widerstand. Ultimately, the Allies' policy of absolute silence', the Grand Alliance with the Soviet Union, and the demand for unconditional surrender' pushed the war to its final denouement, disregarding the German Resistance. -;a massive work by a distinguished historian - New Statesman and Society;a detailed, sympathetic, and meticulously documented chronicle of German resistance diplomacy - Journal of Military History;a superbly researched study - Financial Times A history of comic books from the 1930s to 9/11. "Not only a memoir, it's also a fierce reply to those who criticized German-Jewish assimilation and the tardiness of many families in leaving Germany" (Publishers Weekly). In this poignant book, a renowned historian tells of his youth as an assimilated, anti-religious Jew in Nazi Germany from 1933 to 1939—"the story," says Peter Gay, "of a poisoning and how I dealt with it." With his customary eloquence and analytic acumen, Gay describes his family, the life they led, and the reasons they did not emigrate sooner, and he explores his own ambivalent feelings—then and now—toward Germany its people. Gay relates that the early years of the Nazi regime were relatively benign for his family, yet even before the events of 1938-39, culminating in Kristallnacht, they were convinced they must leave the country. Gay describes the bravery and ingenuity of his father in working out this difficult emigration process, the courage of the non-Jewish friends who helped his family during their last bitter months in Germany, and the family's mounting panic as they witnessed the indifference of other countries to their plight and that of others like themselves. Gay's account—marked by candor, modesty, and insight—adds an important and curiously

neglected perspective to the history of German Jewry. "Not a single paragraph is superfluous. His inquiry rivets without let up, powered by its unremitting candor." —Los Angeles Times Book Review "[An] eloquent memoir." —The Wall Street Journal "A moving testament to the agony the author experienced." —Chicago Tribune "[A] valuable chronicle of what life was like for those who lived through persecution and faced execution." —Choice Agricultural conservation programs: hearing before the Committee on Agriculture, Nutrition, and Forestry, United States Senate, One Hundred Ninth Congress, second session, June 7, 2006. A miraculous, funny, eye-opening and inspirational story for all animal lovers. Between five and twelve million animals are euthanized across the United States each year—more than one thousand every hour. Quentin, a Basenji mix, survived his death sentence and with his new owner, Randy Grim, has launched a campaign to end euthanization in shelters. Grim is the subject of the book "The Man Who Talks to Dogs," and the founder of Stray Rescue of St. Louis. The Last Gasp takes us to the dark side of human history in the first full chronicle of the gas chamber in the United States. In page-turning detail, award-winning writer Scott Christianson tells a dreadful story that is full of surprising and provocative new findings. First constructed in Nevada in 1924, the gas chamber, a method of killing sealed off and removed from the sight and hearing of witnesses, was originally touted as a "humane"

method of execution. Delving into science, war, industry, medicine, law, and politics, Christianson overturns this mythology for good. He exposes the sinister links between corporations looking for profit, the military, and the first uses of the gas chamber after World War I. He explores little-known connections between the gas chamber and the eugenics movement. Perhaps most controversially, he has unearthed new evidence about American and German collaboration in the production and lethal use of hydrogen cyanide and about Hitler's adoption of gas chamber technology developed in the United States. More than a book about the death penalty, this compelling history ultimately reveals much about America's values and power structures in the twentieth century. Earl Warren is rightly remembered not only as one of the great chief justices of the Supreme Court, but as one of the most influential Americans of the twentieth century. Warren Court decisions such as *Brown v. Board of Education*, *Miranda*, and *Baker v. Carr* have given us such famous phrases as "separate is not equal," "read him his rights," and "one-man-one-vote" - and have vastly expanded civil rights and personal liberties. A generation later the Warren Court's decisions still define American freedoms. Ed Cray recounts this truly American story in the finest and most comprehensive biography of Earl Warren. He has interviewed nearly all of the Chief's law clerks, four of his children, and more than one hundred others, many of whom

recall for the first time their years with Warren. He has read thousands of personal letters and official documents deposited in ten libraries across the country, weaving them into a tale of political intrigue, judicial politics, family reminiscences, and a loving marriage. EBONY is the flagship magazine of Johnson Publishing. Founded in 1945 by John H. Johnson, it still maintains the highest global circulation of any African American-focused magazine. Provides a counter argument to "Silent Spring" in this study into the effects, uses, control and research of agricultural pesticides. The author takes the position that it is necessary to protect against insect borne diseases and that there is a need for a bountiful supply of good food. "Listening to the story is even more dramatic than reading it. It should be purchased by every public and school library." - School Library Journal

Devoted wife and mother. Acclaimed novelist, illustrator, and interpreter of the American West. At a time when society expected women to concentrate on family and hearth, Mary Hallock Foote (1847-1938) published twelve novels, four short story collections, almost two dozen stories and essays, and innumerable illustrations. In *Mary Hallock Foote*, Darlis A. Willer examines the life of this gifted and spirited woman from the East as she adapted herself and her artistic vision to the West. Foote's images of the American West differed sharply from those offered by male artists and writers of the time. She depicted a more gentle West, a domestic West of families

and settlements rather than a Wild West of soldiers, American Indians, and cowboys. Miller examines how Foote's career was molded by the East-West tensions she experienced throughout her adult life and by society's expectations of womanhood and motherhood. This biography recounts Foote's Quaker upbringing; her education at the School of Design for Women at Cooper Union, New York; her marriage to Arthur De Wint Foote, including his alcohol problems; her life in Boise, Idaho, and later Grass Valley, California; her grief over the early death of daughter Agnes Foote; and the previously unexplored last two decades of her life. Miller has made extensive use of every major archive of letters and documents by and about Foote. She sheds light on Foote's numerous stories, essays, and novels. And examines all pertinent sources on Foote's life and works. Anyone interested in the American West, women's history, or life histories in general will find Miller's biography of Mary Hallock Foote fascinating. Theodore Hamm uses the 1960 execution of Caryl Chessman as a lens for examining how politics and debates about criminal justice became a volatile mix that ignited postwar California. The effects of those years continue to be felt as the state's three-strikes law and expanding prison-construction program spark heated arguments over rehabilitation and punishment. Known as the Red Light Bandit, Chessman allegedly stalked lovers' lanes in Los Angeles. Eventually convicted of rape and kidnapping, he was

sentenced to death in 1948. In prison he gained significant notoriety as a writer, beginning with his autobiographical *Cell 2455 Death Row* (1954). In the following years Chessman presented himself not only as an innocent man but also as one rehabilitated from his prior life of crime. He acquired an enthusiastic audience among leading criminologists, liberal intellectuals, and ordinary citizens, many of whom engaged in protests to halt Chessman's execution. Hamm analyzes how Chessman convinced thousands of Californians to support him, and why Governor Edmund G. (Pat) Brown, who opposed the death penalty, allowed the execution to go forward. He also demonstrates the intrinsic limits of the popular commitment to the rehabilitative ideal. *Rebel and a Cause* places the Chessman case in a broad cultural and historical context, relating it to histories of prison reform, the anti-death penalty movement, the popularization of psychology, and the successive rise and decline of the New Left and the more enduring rise of the New Right. The story behind the massive white block letters set into a steep Los Angeles hillside—and the city and culture they represent: "Terrific."—*San Francisco Chronicle* To so many who see its image, the Hollywood sign represents the earthly home of that otherwise ethereal world of fame, stardom, celebrity—the American and worldwide aspiration to be in the limelight, to be, like the Hollywood sign itself, instantly recognizable. How an advertisement erected in 1923, touting

the real estate development Hollywoodland, took on a life of its own is a story worthy of a movie itself. Leo Braudy traces the remarkable life of this distinctly American landmark, which has been saved over the years by a various fans and supporters, among them Alice Cooper and Hugh Hefner, who spearheaded its reconstruction in the 1970s. He also uses the sign's history to offer an intriguing look at the rise of the film business from its earliest, silent days through the development of the studio system that helped define modern Hollywood. Mixing social history, urban studies, literature, and film, along with forays into such topics as the lure of Hollywood for utopian communities and the development of domestic architecture in Los Angeles, *The Hollywood Sign* is a fascinating account of how a temporary structure has become a permanent icon of American culture. "An entertaining tale."—The Washington Post Set against the drama of the Great Depression, the conflict of American race relations, and the inquisitions of the House Un-American Activities Committee, *Cafe Society* tells the personal history of Barney Josephson, proprietor of the legendary interracial New York City night clubs *Cafe Society Downtown* and *Cafe Society Uptown* and their successor, *The Cookery*. Famously known as "the wrong place for the right people," *Cafe Society* featured the cream of jazz and blues performers--among whom were Billie Holiday,

Big Joe Turner, Lester Young, Buck Clayton, Big Sid Catlett, and Mary Lou Williams--as well as comedy stars Imogene Coca, Zero Mostel, and Jack Gilford, the boogie-woogie pianists, and legendary gospel and folk artists. A trailblazer in many ways, Josephson welcomed black and white artists alike to perform for mixed audiences in a venue whose walls were festooned with artistic and satiric murals lampooning what was then called "high society." Featuring scores of photographs that illustrate the vibrant cast of characters in Josephson's life, this exceptional book speaks richly about *Cafe Society's* revolutionary innovations and creativity, inspired by the vision of one remarkable man.
