a coherent narrative of Canadian fantastic
literature through analysis of the major texts
and authors in the field and through relating
the authors' work to the world around them.

Seattle City of Literature Mar 14 2022 This bookish history of Seattle includes essays, history and personal stories from such literary luminaries as Frances McCue, Tom Robbins, Garth Stein, Rebecca Brown, Jonathan Evison, Tree Swenson, Jim Lynch, and Sonora Jha among many others. Timed with Seattle's bid to become the second US city to receive the UNESCO designation as a City of Literature,

Notes to Literature May 24 2020 The author, a noted literary critic, presents a selection of his thought on Balzac, Valery, Dickens, Goethe, Heine, Hoelderlin, lyric poetry, realism, the essay and the contemporary novel.

Theory of Literature Aug 07 2021 Theory of Literature was born from the collaboration of Ren Wellek, a Vienna-born student of Prague School linguistics, and Austin Warren, an independently minded "old New Critic." Unlike many other textbooks of its era, however, this classic kowtows to no dogma and toes no party line. Wellek and Warren looked at literature as both a social product--influenced by politics, economics, etc.--as well as a self-contained system of formal structures. Incorporating examples from Aristotle to Coleridge, written in clear, uncondescending prose, Theory of Literature is a work which, especially in its suspicion of simplistic explanations and its distrust of received wisdom, remains extremely relevant to the study of literature today.

Aunt Phillis's Cabin; Or, Southern Life As It Is Feb 13 2022 This book is a plantation fiction novel. It was a strong commercial success and bestseller. Based on her growing up in Warrenton, Virginia, of an elite planter family,

Eastman portrays plantation owners and slaves as mutually respectful, kind, and happy beings.

Books Are Made Out of Books Dec 31 2020 A "comprehensive and enlightening" study of Cormac McCarthy's literary influences, based on newly acquired archival materials (Times Literary Supplement). Though Cormac McCarthy once told an interviewer for the New York Times Magazine that "books are made out of books," he has been famously unwilling to discuss how his own writing draws on the works of other writers. Yet his novels and plays masterfully appropriate and allude to an extensive range of literary works, demonstrating that McCarthy is well aware of literary tradition, respectful of the canon, and deliberately situating himself in a knowing relationship to precursors. The Wittliff Collection at Texas State University acquired McCarthy's literary archive in 2007. In *Books Are Made Out of Books*, Michael Lynn Crews thoroughly mines the archive to identify nearly 150 writers and thinkers that McCarthy himself references in early drafts, marginalia, notes, and correspondence. Crews organizes the references into chapters devoted to McCarthy's published works, the unpublished screenplay *Whales and Men*, and McCarthy's correspondence. For each work, Crews identifies the authors, artists, or other cultural figures that McCarthy references; gives the source of the reference in McCarthy's papers; provides context for the reference as it appears in the archives; and explains the significance of

the reference to the novel or play that McCarthy was working on. This groundbreaking exploration of McCarthy's literary influences—impossible to undertake before the opening of the archive—vastly expands our understanding of how one of America's foremost authors has engaged with the ideas, images, metaphors, and language of other thinkers and made them his own.

strategies are utilized to promote and sell books. Sections cover: The standard university-course specifications of contemporary writing, offering an extensive picture of the social, economic, and cultural contexts of these literary genres The impact and status of non-literary writing, and how this compares with certain literary genres as an index to contemporary culture and a reflection of the state of the publishing industry The practicalities and conventions of the publishing industry Contextual aspects of literary culture and the book industry, visiting the broader spheres of publishing, promotion, bookselling, and literary culture Carefully linked chapters allow readers to tie key elements of the publishing industry to the particular demands and features of contemporary literary genres and writing, offering a detailed guide to the ways in which the three core areas of culture, economics, and pragmatics intersect in the world of publishing. Further to being a valuable resource for those studying English or Creative Writing, the volume is a key text for degrees in which Publishing is a component, and is relevant to those aspects of Media Studies that look at interactions between the media and literature/publishing.

A Companion to American Literature Apr 15 2022 A comprehensive, chronological overview of American literature in three scholarly and authoritative volumes *A Companion to American Literature* traces the history and development of American literature from its

How to Talk About Books You Haven't Read

Jan 12 2022 In this delightfully witty, provocative book, literature professor and psychoanalyst Pierre Bayard argues that not having read a book need not be an impediment to having an interesting conversation about it. (In fact, he says, in certain situations reading the book is the worst thing you could do.) Using examples from such writers as Graham Greene, Oscar Wilde, Montaigne, and Umberto Eco, he describes the varieties of "non-reading"-from books that you've never heard of to books that you've read and forgotten-and offers advice on how to turn a sticky social situation into an occasion for creative brilliance. Practical, funny, and thought-provoking, *How to Talk About Books You Haven't Read*-which became a favorite of readers everywhere in the hardcover edition-is in the end a love letter to books, offering a whole new perspective on how we

read and absorb them.

The Oxford Guide to Literature in English Translation

Apr 03 2021 Translation has been a crucial process in world culture over the past two millennia and more. In the English-speaking cultures many of the most important texts are translations, from Homer to Beckett, the Bible to Freud. Although recent years have seen a boom in translation studies, there has been no comprehensive yet convenient guide to this essential element of literature in English. Written by eminent scholars from many countries, the *Oxford Guide to Literature in English Translation* meets this need and will be essential reading for all students of English and comparative literature. It highlights the place of translation in our culture, encouraging awareness of the issues raised, making the translator more 'visible'. Concentrating on major writers and works, it covers translations out of many languages, from Greek to Korean, from Swahili to Russian. For some works (e.g. Virgil's *Aeneid*) which have been much translated, the discussion is historical and critical, showing how translation has evolved over the centuries and bringing out the differences between versions. Elsewhere, with less familiar literatures, the Guide examines the extent to which translation has done justice to the range of work available. The Guide is divided into two parts. Part I contains substantial essays on theoretical questions, a pioneering outline of the history of translation into English, and discussions of the problems

raised by specific types of text (e.g. poetry, oral literature). The second, much longer, part consists of entries grouped by language of origin; some are devoted to individual texts (e.g. the *Thousand and One Nights*) or writers (e.g. Ibsen, Proust), but the majority offer a critical overview of a genre (e.g. Chinese poetry, Spanish Golden Age drama) or of a national literature (e.g. Hungarian, Scottish Gaelic). There is a selective bibliography for each entry and an index of authors and translators.

On Reading Well Jul 26 2020 □ Publishers Weekly starred review A Best Book of 2018 in Religion, Publishers Weekly Reading great literature well has the power to cultivate virtue. Great literature increases knowledge of and desire for the good life by showing readers what virtue looks like and where vice leads. It is not just what one reads but how one reads that cultivates virtue. Reading good literature well requires one to practice numerous virtues, such as patience, diligence, and prudence. And learning to judge wisely a character in a book, in turn, forms the reader's own character. Acclaimed author Karen Swallow Prior takes readers on a guided tour through works of

great literature both ancient and modern, exploring twelve virtues that philosophers and theologians throughout history have identified as most essential for good character and the good life. In reintroducing ancient virtues that are as relevant and essential today as ever, Prior draws on the best classical and Christian thinkers, including Aristotle, Aquinas, and Augustine. Covering authors from Henry Fielding to Cormac McCarthy, Jane Austen to George Saunders, and Flannery O'Connor to F. Scott Fitzgerald, Prior explores some of the most compelling universal themes found in the pages of classic books, helping readers learn to love life, literature, and God through their encounters with great writing. In examining works by these authors and more, Prior shows why virtues such as prudence, temperance, humility, and patience are still necessary for human flourishing and civil society. The book includes end-of-chapter reflection questions geared toward book club discussions, features original artwork throughout, and includes a foreword from Leland Ryken.

Around the World in 80 Books Sep 08 2021 'Restlessly curious, insightful, and quirky, David Damrosch is the perfect guide to a round-the-world adventure in reading' Stephen Greenblatt A transporting and illuminating voyage around the globe, told through eighty classic and modern books 'It is always a pleasure to talk about books with David Damrosch, who has read all of them, and he is so eloquent and understanding about them all' Orhan Pamuk

Inspired by Jules Verne's hero Phileas Fogg, David Damrosch, chair of Harvard's Department of Comparative Literature and founder of Harvard's Institute for World Literature, set out to counter a pandemic's restrictions on travel by exploring eighty exceptional books from around the globe. Following a literary itinerary from London to Venice, Tehran and points beyond, and via authors from Woolf and Dante to Nobel prizewinners Orhan Pamuk, Wole Soyinka, Mo Yan and Olga Tokarczuk, he explores how these works have shaped our idea of the world, and the ways the world bleeds into literature. To chart the expansive landscape of world literature today, Damrosch explores how writers live in two very different worlds: the world of their personal experience, and the world of books that have enabled great writers to give shape and meaning to their lives. In his literary cartography, Damrosch includes compelling contemporary works as well as perennial classics, hard-bitten crime fiction as well as haunting works of fantasy, and the formative tales that introduce us as children to the world we're entering. Taken together, these eighty titles offer us fresh perspective on perennial problems, from the social consequences of epidemics to the rising inequality that Thomas More designed Utopia to combat and the patriarchal structures within and against which many of these books' heroines have to struggle, from the work of Murasaki Shikibu a millennium ago to that of

Margaret Atwood today. *Around the World in 80 Books* is a global invitation to look beyond ourselves and our surroundings, and to see our world and its literature in new ways.

[Why Reading Books Still Matters](#) Jul 06 2021 Bringing together strands of public discourse about valuing personal achievement at the expense of social values and the impacts of global capitalism, mass media, and digital culture on the lives of children, this book challenges the potential of science and business to solve the world's problems without a complementary emphasis on social values. The selection of literary works discussed illustrates the power of literature and human arts to instill such values and foster change. The book offers a valuable foundation for the field of literacy education by providing knowledge about the importance of language and literature that educators can use in their own teaching and advocacy work.

Eating Eternity May 04 2021 Baxter shows how the French have celebrated the relationship between art and food. Painters have found in food a persuasive metaphor for the divinity of nature; authors wrote in Paris's cafes, and wrote of the pleasures and importance of food in French culture. Inspired by art, French chefs created dishes as much for the way they looked as for their taste. Part history, part guidebook, Baxter's book offers a seductive menu of those places in the French capital where art and food have intersected, and brings to life the culinary experiences of Paris. -- adapted from back cover.

The Child in British Literature Oct 09 2021 The first volume to consider childhood over eight centuries of British writing, this book traces the literary child from medieval to contemporary texts. Written by international experts, the

The Cambridge Companion to Literature and Climate Oct 17 2019 Investigating the relationship between literature and climate, this Companion offers a genealogy of climate representations in literature while showing how literature can help us make sense of climate change. It argues that any discussion of literature and climate cannot help but be shaped by our current - and inescapable - vantage point from an era of climate change, and uncovers a longer literary history of climate that might inform our contemporary climate crisis. Essays explore the conceptualisation of climate in a range of literary and creative modes; they represent a diversity of cultural and historical perspectives, and a wide spectrum of voices and views across the categories of race, gender, and class. Key issues in climate criticism and literary studies are introduced and explained, while new and emerging concepts are discussed and debated in a final section that puts expert analyses in conversation with each other.

Literature for Young Adults Feb 19 2020

Young adults are actively looking for anything that connects them with the changes happening in their lives, and the books discussed throughout *Literature for Young Adults* have the potential to make that connection and motivate them to read. It explores a great variety of works, genres, and formats, but it places special emphasis on contemporary works whose nontraditional themes, protagonists, and literary conventions make them well suited to young adult readers. It also looks at the ways in which contemporary readers access and share the works they're reading, and it shows teachers ways to incorporate nontraditional ways of accessing and sharing books throughout their literature programs. In addition to traditional genre chapters, *Literature for Young Adults* includes chapters on literary nonfiction; poetry, short stories, and drama; cover art, picture books, illustrated literature, and graphic novels; and film. It recognizes that, while films can be used to complement print literature, they are also a literacy format in their own right--and one that young adults are particularly familiar and comfortable with. The book's discussion of literary language--including traditional elements as well as metafictional terms--enables readers to share in a literary conversation with their students (and others) when communicating about books. It will help readers teach young adults the language they need to articulate their responses to the books they are reading.

What Is World Literature? Oct 29 2020

World literature was long defined in North America as an established canon of European masterpieces, but an emerging global perspective has challenged both this European focus and the very category of "the masterpiece." The first book to look broadly at the contemporary scope and purposes of world literature, *What Is World Literature?* probes the uses and abuses of world literature in a rapidly changing world. In case studies ranging from the Sumerians to the Aztecs and from medieval mysticism to postmodern metafiction, David Damrosch looks at the ways works change as they move from national to global contexts. Presenting world literature not as a canon of texts but as a mode of circulation and of reading, Damrosch argues that world literature is work that gains in translation. When it is effectively presented, a work of world literature moves into an elliptical space created between the source and receiving cultures, shaped by both but circumscribed by neither alone. Established classics and new discoveries alike participate in this mode of circulation, but they can be seriously mishandled in the process. From the rediscovered Epic of Gilgamesh in the nineteenth century to Rigoberta Menchú's writing today, foreign works have often been distorted by the immediate needs of their own editors and translators. Eloquently written, argued largely by example, and replete with insightful close readings, this book is both an

essay in definition and a series of cautionary tales.

The J. Hillis Miller Reader Jun 24 2020 This anthology exhibits the diversity, inventiveness, and intellectual energy of the writings of J. Hillis Miller, the most significant North American literary critic of the twentieth century. From the 1950s onward, Miller has made invaluable contributions to our understanding of the practice and theory of literary criticism, the ethics and responsibilities of teaching and reading, and the role of literature in the modern world. He has also shown successive generations of scholars and students the necessity of comprehending the relationship between philosophy and literature. Divided into six sections, the volume provides more than twenty significant extracts from Miller's works. In addition, there is a new interview with Miller, as well as a series of specially commissioned critical responses to Miller's work by a number of the leading figures in literary and cultural studies today. Following a comprehensive critical introduction by the editor, each section has a brief introduction, directing the reader toward pertinent themes. There is also a comprehensive bibliography and a chronology of Miller's professional life and activities. This reader, the first of Miller's work in English, provides an indispensable overview and introduction to one of the most original critical voices to have emerged since the inception of the teaching of English and American literature

in universities in the English-speaking world. [Reading Like a Writer](#) Jan 24 2023 DIV In her entertaining and edifying New York Times bestseller, acclaimed author Francine Prose invites you to sit by her side and take a guided tour of the tools and tricks of the masters to discover why their work has endured. Written with passion, humour and wisdom, *Reading Like a Writer* will inspire readers to return to

literature with a fresh eye and an eager heart – to take pleasure in the long and magnificent sentences of Philip Roth and the breathtaking paragraphs of Isaac Babel; to look to John le Carré for a lesson in how to advance plot through dialogue and to Flannery O’Connor for the cunning use of the telling detail; to be inspired by Emily Brontë’s structural nuance and Charles Dickens’s deceptively simple narrative techniques. Most importantly, Prose cautions readers to slow down and pay attention to words, the raw material out of which all literature is crafted, and reminds us that good writing comes out of good reading.

The Cambridge Companion to the Body in Literature Nov 10 2021 This Companion offers the first systematic analysis of the representation of the body in literature. It historicizes embodiment by charting our evolving understanding of the body from the Middle Ages to the present day, and addresses such questions as sensory perception, technology, language and affect; maternal bodies, disability and the representation of ageing; eating and obesity, pain, death and dying; and racialized and posthuman bodies. This Companion also considers science and its construction of the body through disciplines such as obstetrics, sexology and neurology. Leading scholars in the field devote special attention to poetry, prose, drama and film, and chart a variety of theoretical understandings of the body.

Ecocritical Approaches to Literature in French Dec 11 2021 Ecocritical Approaches to Literature in French applies the methods of ecocritical inquiry to French literature. To date, there is very little ecocritical scholarship on French-language literature and, indeed, very little on any non-Anglophone literature. This collection was created with two audiences in mind: it introduces an ecocritical perspective for readers of French literature, and it familiarizes ecocritics with literature in French. This collection will be a useful resource to scholars of French and Francophone literature, and of ecocriticism.
