COLOURED EDITION! These concise revision notes (flashcards) contain all the necessary exam knowledge in a short, easy to memorize form. Each page covers the key facts, such as definitions, of a single topic, without the distraction of unnecessary information. Created with great care, they include important information specific to exam questions. In *The A Level Mindset*, Steve Oakes and Martin Griffin share the secrets of coaching students to develop the characteristics, habits and mindsets which will help them realise their potential. Those students who make real and sustained progress at A level aren't necessarily the ones with superb GCSEs. Some students leap from average results aged 16 to outstanding results aged 18. Others seem to hit a ceiling. But why? It was in trying to answer this question that the VESPA system emerged. Steve and Martin have cut through the noise surrounding character development and identified five key characteristics that all students need to be

successful: vision, effort, systems, practice and attitude. These characteristics beat cognition hands down. Successful students approach their studies with the right behaviours, skills and attitudes: they understand how to learn and revise effectively, they're determined and organised, they give more discretionary effort and they get top results. Success at A level is a result of character, not intelligence. Much has been written about growth mindsets and character development in recent years, but teachers are still left wondering how to apply these ideas in their contexts: how can these theories help learners in practice? Taking cues from the work of Peter Clough, Carol Dweck and Angela Lee Duckworth, and informed by their collective 30 plus years of teaching and coaching, Steve and Martin have spent years researching how character and behaviours affect student outcomes in their sixth form. After identifying the core traits that contributed to student success, they developed practical activities to help every student develop the A Level Mindset. Discover 40 concrete, practical and applicable tools and strategies that will supercharge learners' ambition, organisation, productivity, persistence and determination. Suitable for teachers, tutors, heads of sixth form or anyone else who wants to help A level students achieve their potential, The A Level Mindset offers 40 easy-to-use activities to develop students' resilience, commitment, buoyancy, motivation and determination. It could be your key to transforming student outcomes.

It was created from scratch in the belief that, with better tools, you can accelerate your learning, achieve more in less time and feel more motivated along the way. The Zero to Finals books are designed to be studied from cover to cover in preparation for your exams. I have removed the waffle and focused on the key information you need for your exams. I have added helpful "Tom Tips" I have picked up during a decade of sitting medical exams, that will help you score those extra marks. The focus is on learning the concepts, vocabulary and latest guidelines so you can take the fastest route to exam success and proficiency as a new doctor. The Zero to Finals books are supplemented by the resources on the website (zerotofinals.com). There is a webpage on each topic with illustrations, diagrams, podcasts and videos that tackle the problem from every angle. You can also find carefully crafted practice questions, with feedback to help you develop your exam technique. Love To Teach: Research and Resources for every classroom is an exciting book that combines the latest educational research with examples of what this can look like in the classroom. Filled with research-informed ideas to support all teachers and leaders in both Primary and Secondary this book would be great for NQTs to more experienced teachers and leaders alike. The educational research is presented in a format which is accessible, helpful and informative and will help inform educators about cutting-edge research in

practical and applicable ways. The practical resources are easily adaptable and ready to be implemented in any classroom and are grounded in Kate's own classroom practice. 'Written with the same passion, reflection and drive that runs through everything Kate does, Love To Teach is a real gem. Kate explores a huge range of practical pick-up-and-use strategies rooted deeply in educational research. The book is an equal balance between thought-provoking and extremely useful. Love to Teach is a great resource for all teachers who are committed to improving their practice and increasing their impact upon the futures of the young people they teach.' -- Sarah Findlater Secondary Principal at Gems First Point School Dubai. Author and Series Editor of the Bloomsbury CPD Library @msfindlater

A fantastic aid for coursework, homework, and test revision, this is the ultimate study guide to biology. From reproduction to respiration and from enzymes to ecosystems, every topic is fully illustrated to support the information, make the facts clear, and bring biology to life. For key ideas, "How it works" and "Look closer" boxes explain the theory with the help of simple graphics. And for revision, a handy "Key facts" box provides a summary you can check back on later. With clear, concise coverage of all the core biology topics, SuperSimple Biology is the perfect accessible guide for students, supporting classwork, and making studying for exams the easiest it's ever been. Each deck of Show What You Know® on STAAR, Reading/Writing Flash Cards includes 90+ cards. The front of each flash card presents a question aligned to one of the TEKS, as well as a correlation in the top left corner. On the back of each multiple choice question, the correct answer is given along with an analysis explaining why each choice is correct or incorrect.

GCSE Biology is the study of living organisms and their structure, life cycles, adaptations, and environment. With our revision cards, games and study activities, you can study anything from photosynthesis to the human body to ecosystems and beyond. Let's get started. HR is one of the world's fastest-growing fields, which presents HR professionals with an unprecedented opportunity for global advancement. Becoming certified as a Global Professional in Human Resources (GPHR) tells the international business community that you are prepared to assume HR responsibilities anywhere. SHRM Global Learning System is definitely one of the most authentic sources for your GPHR preparation. This small book is not meant to replace the vast SHRM Global Learning System curriculum, but is rather designed to complement it. This content was created by me as my personal notes when I attempted GPHR and it helped me immensely in the last few weeks of preparation. It is a lean, summarized version of all modules of SHRM Global Learning System and is created with intent to provide flash-card style revision notes covering all modules of GPHR Body of Knowledge right before exams. This covers the following modules of GPHR Body of Knowledge: 1. Strategic HR Management 2. Organizational Effectiveness & Talent Development 3. International Assignment Management 4. Global Talent Acquisition 5. Global Compensation & Benefits 6. Workforce Relations & Risk Management
