**The Gods** Sep 04 2021 Excerpt from The Gods: And Other Lectures Ach nation has created a god, and the god has always resembled his creators. He hated and loved what they hated and loved, and he was invariably found on the side of those in power. Each god was intensely patriotic, and detested all nations but his own. All these gods demanded praise, ?attery, and worship. Most of them were pleased with sacrifice, and the smell of innocent blood has ever been considered a divine perfume. All these gods have insisted upon having a vast number of priests, and the priests have always insisted upon being supported by the people, and the principal business of these priests has been to boast about their god, and to insist that he could easily vanquish all the other gods put together. These gods have been manufactured after numberless models, and according to the most grotesque fashions. Some have a thousand arms, some a hundred heads, some are adorned with necklaces Of living snakes, some are armed with clubs, some with sword and shield, some with bucklers, and some have wings as a cherub; Some were invisible, some would Show themselves entire, and some would only Show their backs; some were jealous, some were foolish, some turned themselves into men, some into swans, some into bulls, some into doves, and some into Holy Ghosts, and made love to the beautiful daughters of men. Some were married - all ought to have been and some were considered as Old bachelors from all eternity. Some had children, and the children were turned into gods and worshiped as their fathers had been. Most of these gods were revengeful, savage, lustful, and ignorant. As they generally depended upon their priests for infor mation, their ignorance can hardly excite our astonishment. **Chocolate** Oct 25 2020 *Chocolate: Pathway to the Gods* takes readers on a journey through 3,000 years of the history of chocolate. It is a trip filled with surprises. And it is a beautifully illustrated tour, featuring 132 vibrant color photographs and a captivating sixty-minute DVD documentary. Along the way, readers learn about the mystical allure of chocolate for the peoples of Mesoamerica, who were the first to make it and who still incorporate it into their lives and ceremonies today. Although it didn't receive its Western scientific name, *Theobroma cacao*—"food of the gods"—until the eighteenth century, the cacao tree has been at the center of Mesoamerican mythology for thousands of years. Not only did this "chocolate tree" produce the actual seeds from which chocolate was extracted but it was also symbolically endowed with cosmic powers that enabled a dialogue between humans and their gods. From the pre-Columbian images included in this sumptuous book, we are able to see for ourselves the importance of chocolate to the Maya, Aztecs, Olmecs, Mixtecs, and Zapotecs who grew, produced, traded, and fought over the prized substance. Through archaeological and other ethnohistoric research, the authors of this fascinating book document the significance of chocolate—to gods, kings, and everyday people—over several millennia. The illustrations allow us to envision the many ancient uses of this magical elixir: in divination ceremonies, in human sacrifices, and even in ball games. And as mythological connections between cacao trees, primordial rainforests, and biodiversity are unveiled, our own quest for ecological balance is reignited. In demonstrating the extraordinary value of chocolate in Mesoamerica, the authors provide new reasons—if any are needed—to celebrate this wondrous concoction.

*The Mirror of the Gods* Dec 07 2021 Perhaps the single most revolutionary aspect of the Renaissance was the re-emergence of the gods and goddesses of antiquity. In the midst of Christian Europe, artists began to decorate luxury goods with scandalous stories from classical mythology, and rulers to identify themselves with the deities of ancient religion. The resulting fusion of erotic fantasy and political power changed the course of Western art and produced many of its most magical and subversive works. The first book ever to survey this extraordinary phenomenon in its entirety, *The Mirror of the Gods* takes the story from the Renaissance to the Baroque. Each chapter focuses on a particular god (Diana, Apollo, Hercules, Venus, Bacchus, Jupiter) and recounts the tales about that deity, not as they appear in classical literature but as they were re-created by artists such as Botticelli, Titian, Bernini and Rembrandt. And yet this is not a book simply about painting and sculpture. It is an attempt to re-imagine the entire designed world of the Renaissance, where the gods also appeared in carnival floats and in banquet displays, and entertained the public in the form of snow men and fireworks. This rich and original new portrait of the Renaissance will ensure that readers never see the period in quite the same way again.

**Of Gods and Books** Nov 18 2022 India has been the homeland of diverse manuscript traditions that do not cease to impress scholars for their imposing size and complexity. Nevertheless, many topics concerning the study of Indian manuscript cultures still remain to receive systematic examination. *Of Gods and Books* pays attention to one of these topics - the use of manuscripts as ritualistic tools. Literary sources deal quite extensively with rituals principally focused on manuscripts, whose worship, donation and preservation are duly prescribed. Around these activities, a specific category of ritual gift is created, which finds attestations in pre-tantric, as well as in smṛta and tantric, literature, and whose practice is also variously reflected in epigraphical documents. De Simini offers a first systematic study of the textual evidence on the topic of the worship and donation of knowledge. She gives account of possible implications for the relationships between religion and power. The book is indispensable for a deeper understanding of the cultural aspects of manuscript transmission in medieval India, and beyond.
