*Informally, $\$K\$$ -theory is a tool for
probing the structure of a mathematical
object such as a ring or a topological space
in terms of suitably parameterized vector
spaces and producing important intrinsic
invariants which are useful in the study of
algebra The intersection of athletics and
academics have been a focal point of
numerous research studies since schools
began sponsoring sports teams and competing
against local rival districts. Many recent
high-profile scandals that have exposed the
National Collegiate Athletic Association
(NCAA) and other national governing bodies
brought to light an unfortunate by-product
of education-based athletics: winning at all*

costs. This "need to win" mentality is negatively impacting our scholastic athletic programs, which are beginning to lose their focus. The purpose of this qualitative, collective case study is to examine perceptions of district-level athletic administrators on successful models of scholastic athletics in urban schools. Urban school districts, which are chronically under-resourced when it comes to scholastic athletic opportunities for students, are disorganized across the K-12 grade span. In schools that lack programming, students are often shuffled to their local playground or community center - facilities that typically do not have the capacity to operate quality programming. This study aims to address the central research questions on developmentally appropriate programming, leadership development in scholastic athletics, and the impact of scholastic athletics on student outcomes. The research analyzed common themes among the urban school districts and the scholastic athletic programming they offer at different levels of a student's educational experience. "Play By K" is used as a benchmark initiative to ensure all students have the opportunity to engage in open play by the time they start

kindergarten - and to be able to continue with their love of sport through their high school years and beyond. The researcher explores models of successful scholastic athletic programs in urban schools by conducting individual interviews with district-level athletic administrators in order to better support opportunities for all students-athletes through construction of an inclusive and comprehensive K-12 model. Without so much as a warning, humanity in its entirety was suddenly moved to another dimension. Every person without exception. But this new world with all its opportunities and gifts of wondrous abilities, was a stadium. A deadly arena of an unimaginable scale. And Humanity were to be its latest gladiators. Every man, woman and child was given a weapon and ordered to fight. Stuck in this dimension without a way out, only two options existed for the would be hunters: Fight with monsters to complete the many trials ahead, or perish. Faced with hordes of powerful monsters, thrown into battle with complete strangers at random, the unfair game of survival began. And from the very beginning, billions of lives were extinguished in mere moments. But even within this abyss of despair was a small ray

of hope: If even one person were to complete every raid, then humanity would be redeemed and restored back to its former glory. No save points, no revives, no retries.

Everyone had just one life to make their way through the gauntlet of raids prepared to test their mettle. Within this marathon of death, one man becomes aware of an exception to the rules of the game. This is the

• Kirkus Reviews One evening, Mother tells

Daughter a story about a tiger spirit who

lived in a woman's body. She was called Hu Gu Po, and she hungered to eat children, especially their toes. Soon afterward, Daughter awakes with a tiger tail. And more mysterious events follow: Holes in the backyard spit up letters penned by her grandmother; a visiting aunt arrives with snakes in her belly; a brother tests the possibility of flight. All the while, Daughter is falling for Ben, a neighborhood girl with strange powers of her own. As the two young lovers translate the grandmother's letters, Daughter begins to understand that each woman in her family embodies a myth—and that she will have to bring her family's secrets to light in order to change their destiny. With a poetic voice of crackling electricity, K-Ming Chang is an explosive young writer who combines the wit and fabulism of Helen Oyeyemi with the subversive storytelling of Maxine Hong Kingston. Tracing one family's history from Taiwan to America, from Arkansas to California, *Bestiary* is a novel of migration, queer lineages, and girlhood. Praise for *Bestiary* "[A] vivid, fabulist debut . . . the prose is full of imagery. Chang's wild story of a family's tenuous grasp on belonging in the U.S. stands out

with a deep commitment to exploring discomfort with the body and its transformations."—Publishers Weekly I brought them to the wilderness because we couldn't cope with our reality. The plan was to make a new life that didn't include heartache. No people. No technology. No interference. Just us. A chance to piece together what was broken. But the wilderness is untamed and harsh. Brutal and unforgiving. It doesn't give a damn about your feelings. Tragedy lives there too. No escaping the truths that won't let you go. All you can do is survive where love, no matter how beastly, is the only thing you can truly count on. Confusing. Wrong. Twisted. Beautiful. Sick. Love is wild. And we're going to set it free. **WARNING:** The Wild is an extremely taboo story. Most will find that the themes in this book will make you incredibly uncomfortable or maybe even offend you. This book is only for the brave, the open-minded, and the ones who crave love in even the most dismal of situations. Extreme sexual themes and violence in certain scenes, which could trigger emotional distress, are found in this story. If you are sensitive to heavy taboo themes, then this story is not for you. Seriously,

you've been warned. Don't say I didn't try. You're probably going to cringe many, many, many times. Even if you're on the fence, it's probably not a good idea to proceed. However, if you're intrigued and fearless and kind of sort of trust me, then carry on. This book is for you. A teen girl finds herself lost on a dangerous adventure in this YA thriller by the acclaimed author of *The Wicker King* and *The Weight of the Stars*—reimagining Peter Pan for today's world. On Wendy Darling's first night in Chicago, a boy called Peter appears at her window. He's dizzying, captivating, beautiful—so she agrees to join him for a night on the town. Wendy thinks they're heading to a party, but instead they're soon running in the city's underground. She makes friends—a punk girl named Tinkerbelle and the lost boys Peter watches over. And she makes enemies—the terrifying Detective Hook, and maybe Peter himself, as his sinister secrets start coming to light. Can Wendy find the courage to survive this night—and make sure everyone else does, too? Acclaimed author K. Ancrum has re-envisioned Peter Pan with a central twist that will send all your previous memories of J. M. Barrie's classic permanently off to Neverland. An Imprint
