"Reflection of Paradise Keukenhof" is a perfect title for my book about one of the most beautiful gardens of this world. This title was tossed during my recent visit to Keukenhof in April 2015 by my wife, before I even thought of this book. She said in one voice this looks like reflection of paradise on earth. The first feeling and reaction revealed was perfect to deliver the title of book. I think what she said is true. The idea of heaven held a special place in the late antique imagination, which was marked by a poignant sense of the relevance of otherworldly realities for earthly life. Such concerns can be found not only in

Judaism and Christianity but also in the Greco-Roman religious, philosophical, scientific, and 'magical' traditions. Transcending social, regional and creedal boundaries, the preoccupation with heaven in Late Antiquity serves as a focus for an interdisciplinary approach to understanding this formative era in Western culture and history. Drawing upon the expertise of scholars of Classics, Ancient History, Jewish Studies and Patristics, this volume explores the different functions of heavenly imagery in different texts and traditions in order to map the patterns of unity and diversity within the religious landscape of Late Antiquity. Lil Iverson is a lovely Christian mom who has been standing on the promises of God for her daughter for almost two years. She has just awakened from a visit to the Garden of Blessings. In these dreams she is actually able to see her daughter, Amy, and talk to her. Amy has been in a coma for nearly two years, and it has been such a comfort for Lil to be able to visit with her daughter in this way. In her most recent dream, Amy had been very happy that Lil was there, for it was a special time in the garden. Amy had said, "Oh Mommy, it's so good that you can be here to see the angels come and get the blessings from the children to take to the people who need them." Lil had watched as these beautiful beings that seemed to be filled with light came and received something from each of the children, and then the angels would just turn away and simply disappear. The thing that Lil loved was that the children seemed to be such an important part of what was happening. "What a wonderful blessing for the children to be made a part of this glorious ceremony! Thank you, Lord, and thank you so much for allowing me to witness this."

Although Emanuel Swedenborg (1688-1772) is commonly known for his spiritual philosophy, his early career was focused on natural science. During this period, Swedenborg thought of the world as like a gigantic machine, following the laws of mechanics and geometry. This volume analyzes this mechanistic worldview from the cognitive perspective, by means of a study of the metaphors in Swedenborg's texts. The author argues that these conceptual metaphors are vital skills of the creative mind and scientific thinking, used to create visual analogies and abstract ideas. This means that Swedenborg's mechanistic and geometrical worldview, allowed him to perceive the world as mechanical and geometrical. Swedenborg thought "with" books and pens. The reading gave him associations and clues, forced him to

interpret, and gave him material for his intellectual development. This book is excerpted and expanded from CONNECTIONS: A Guide to Types and Symbols in the Bible. - By

Glen Carpenter This book is about all of the gardens (and also the vineyards and fields) seen in the Bible, from Genesis, through Song of Songs, all the way into Revelation. It is not by coincidence that humanity began in a

garden, Jesus was crucified between two gardens, and we see a garden in heaven. These are symbols of spiritual realities, and also as prophetic signs of events yet to come.
