My Two Border Towns Feb 17 2020 A picture book debut by an award-winning author about a boy's life on the U.S.-Mexico border, visiting his favorite places on The Other Side with his father, spending time with family and friends, and sharing in the responsibility of community care. Early one Saturday morning, a boy prepares for a trip to The Other Side/El Otro Lado. It's close--just down the street from his school--and it's a twin of where he lives. To get there, his father drives their truck along the Rio Grande and over a bridge, where they're greeted by a giant statue of an eagle. Their outings always include a meal at their favorite restaurant, a visit with Tío Mateo at his jewelry store, a cold treat from the paletero, and a pharmacy pickup. On their final and most important stop, they check in with friends seeking asylum and drop off much-needed supplies. *My Two Border Towns* by David Bowles, with stunning watercolor illustrations by Erika Meza, is the loving story of a father and son's weekend ritual, a demonstration of community care, and a tribute to the fluidity, complexity, and vibrancy of life on the U.S.-Mexico border. Available in English and Spanish.

The Woman Who Stole Vermeer Sep 25 2020 The extraordinary life and crimes of heiress-turned-revolutionary Rose Dugdale, who in 1974 became the only woman to pull off a major art heist. In the world of crime, there exists an unusual commonality between those who steal art and those who repeatedly kill: they are almost exclusively male. But, as with all things, there is always an outlier—someone who bucks the trend, defying the reliable profiles and leaving investigators and researchers scratching their heads. In the history of major art heists, that outlier is Rose Dugdale. Dugdale's life is singularly notorious. Born into extreme wealth, she abandoned her life as an Oxford-trained PhD and heiress to join the cause of Irish Republicanism. While on the surface she appears to be the British version of Patricia Hearst, she is anything but. Dugdale ran head-first towards the action, spearheading the first aerial terrorist attack in British history and pulling off the biggest art theft of her time. In 1974, she led a gang into the opulent Russborough House in Ireland and made off with millions in prized paintings, including works by Goya, Gainsborough, and Rubens, as well as *Lady Writing a Letter with her Maid* by the mysterious master Johannes Vermeer. Dugdale thus became—to this day—the only woman to pull off a major art heist. And as Anthony Amore explores in *The Woman Who Stole Vermeer*, it's likely that this was not her only such heist. *The Woman Who Stole Vermeer* is Rose Dugdale's story, from her idyllic upbringing in Devonshire and her presentation to Elizabeth II as a debutante to her university years and her eventual radical lifestyle. Her life of crime and activism is at turns unbelievable and awe-inspiring, and sure to engross readers.

Into the Gray Zone Jul 24 2020 In this “riveting read, meshing memoir with scientific explication” (Nature), a world-renowned neuroscientist reveals how he learned to communicate with patients in vegetative or “gray zone” states and, more importantly, he explains what those interactions tell us about the working of our own brains. “Vivid, emotional, and thought-provoking” (Publishers Weekly), *Into the Gray Zone* takes readers to the edge of a dazzling, humbling frontier in our understanding of the brain: the so-called “gray zone” between full consciousness and brain death. People in this middle place have sustained traumatic brain injuries or are the victims of stroke or degenerative diseases, such as Alzheimer's and Parkinson's. Many are oblivious to the outside world, and their doctors believe they are incapable of thought. But a sizeable number—as many as twenty percent—are experiencing something different: intact minds adrift deep within damaged brains and bodies. An expert in the field, Adrian Owen led a team that, in 2006, discovered this lost population and made medical history. Scientists, physicians, and philosophers have only just begun to grapple with the implications. Following Owen's journey of exciting medical discovery, *Into the Gray Zone* asks some tough and terrifying questions, such as: What is life like for these patients? What can their families and friends do to help them? What are the ethical implications for religious organizations, politicians, the Right to Die movement, and even insurers? And perhaps most intriguing of all: in defining what a life worth living is, are we too concerned with the physical and not giving enough emphasis to the power of thought? What, truly, defines a satisfying life? “Strangely uplifting...the testimonies of people who have returned from the gray zone evoke the mysteries of consciousness and identity with tremendous power” (The New Yorker). This book is about the difference between a brain and a mind, a body and a person. *Into the Gray Zone* is “a fascinating memoir...reads like a thriller” (Mail on Sunday).

The Line Becomes a River Jul 16 2022 The instant New York Times bestseller, "A must-read for

anyone who thinks 'build a wall' is the answer to anything." --Esquire For Francisco Cantú, the border is in the blood: his mother, a park ranger and daughter of a Mexican immigrant, raised him in the scrublands of the Southwest. Haunted by the landscape of his youth, Cantú joins the Border Patrol. He and his partners are posted to remote regions crisscrossed by drug routes and smuggling corridors, where they learn to track other humans under blistering sun and through frigid nights. They haul in the dead and deliver to detention those they find alive. Cantú tries not to think where the stories go from there. Plagued by nightmares, he abandons the Patrol for civilian life. But when an immigrant friend travels to Mexico to visit his dying mother and does not return, Cantú discovers that the border has migrated with him, and now he must know the whole story. Searing and unforgettable, *The Line Becomes a River* goes behind the headlines, making urgent and personal the violence our border wreaks on both sides of the line

The Death and Life of Aida Hernandez Aug 05 2021 What happens when an undocumented teen mother takes on the U.S. immigration system? When Aida Hernandez was born in 1987 in Agua Prieta, Mexico, the nearby U.S. border was little more than a worn-down fence. Eight years later, Aida's mother took her and her siblings to live in Douglas, Arizona. By then, the border had become one of the most heavily policed sites in America. Undocumented, Aida fought to make her way. She learned English, watched *Friends*, and, after having a baby at sixteen, dreamed of teaching dance and moving with her son to New York City. But life had other plans. Following a misstep that led to her deportation, Aida found herself in a Mexican city marked by violence, in a country that was not hers. To get back to the United States and reunite with her son, she embarked on a harrowing journey. The daughter of a rebel hero from the mountains of Chihuahua, Aida has a genius for survival—but returning to the United States was just the beginning of her quest. Taking us into detention centers, immigration courts, and the inner lives of Aida and other daring characters, *The Death and Life of Aida Hernandez* reveals the human consequences of militarizing what was once a more forgiving border. With emotional force and narrative suspense, Aaron Bobrow-Strain brings us into the heart of a violently unequal America. He also shows us that the heroes of our current immigration wars are less likely to be perfect paragons of virtue than complex, flawed human beings who deserve justice and empathy all the same.

Where We Come From Oct 27 2020 ONE OF KIRKUS REVIEWS' BEST BOOKS OF THE YEAR "A richly conceived and devastating book about the border." —Houston Chronicle From a distance, the towns along the U.S.-Mexican border have dangerous reputations, and Brownsville is no different. But to twelve-year-old Orly, it's simply where his godmother Nina lives—and where he is being forced to stay the summer after his mother's sudden death. Nina, however, has a secret: she's providing refuge for a young immigrant boy named Daniel, for whom traveling to America has meant trading one set of dangers for another. Separated from the violent human traffickers who brought him across the border and pursued by the authorities, Daniel must stay completely hidden. And Orly's arrival threatens to put them all at risk of exposure. Tackling the crisis of U.S. immigration policy from a deeply human angle, *Where We Come From* explores through an intimate lens the ways that family history shapes us, how secrets can burden us, and how finding compassion and understanding for others can ultimately set us free.

Build Bridges, Not Walls Dec 29 2020 In personal stories from twenty years of activism and reporting, an award-winning journalist calls on readers to imagine a world without borders. "Todd Miller cuts through the facile media myths and escapes the paralyzing constraints of a political 'debate' that functions mainly to obscure the unconscionable inequalities that borders everywhere secure. In its soulfulness, its profound moral imagination, and its vision of radical solidarity, Todd Miller's work is as indispensable as the love that so palpably guides it."—Ben Ehrenreich, author of *Desert Notebooks: A Road Map for the End of Time* "The stories of the humble people of the earth Miller documents ask us to also tear down the walls in our hearts and in our heads. What proliferates in the absence of these walls and in spite of them, Miller writes,

is the natural state of things centered on kindness and compassion."—Nick Estes, author of *Our History Is the Future: Standing Rock Versus the Dakota Access Pipeline, and the Long Tradition of Indigenous Resistance* By the time Todd Miller spots him, Juan Carlos has been wandering alone in a remote border region for days. Parched, hungry and disoriented, he approaches and asks for a ride. Miller's instinct is to oblige, but he hesitates: Furthering an unauthorized person's entrance into the U.S. is a federal crime. Todd Miller has been reporting from international border zones for over twenty-five years. In *Build Bridges, Not Walls*, he invites readers to join him on a journey that begins with the most basic of questions: What happens to our collective humanity when the impulse to help one another is criminalized? A series of encounters—with climate refugees, members of indigenous communities, border authorities, modern-day abolitionists, scholars, visionaries, and the shape-shifting imagination of his four-year-old son—provoke a series of reflections on the ways in which nation-states create the problems that drive immigration, and how the abolition of borders could make the world a more sustainable, habitable place for all. Is it possible to imagine a borderless world? How could it emerge, and how might it be better equipped to solve the global emergencies that threaten our collective survival? *Build Bridges, Not Walls* is an inspiring, impassioned call to envision—and work toward—a bold new reality. Praise for *Build Bridges, Not Walls*: "Todd Miller's deeply reported, empathetic writing on the American border is some of the most essential journalism being done today."—Adam Conover, creator and host of *Adam Ruins Everything* and host of *Factually!* "All of Todd Miller's work is essential reading, but *Build Bridges, Not Walls* is his most compelling, insightful work yet."—Dean Spade, author of *Mutual Aid: Building Solidarity During This Crisis (And the Next)* "Miller calls us to see how borders subject millions of people to violence, dehumanization, and early death. More importantly, he highlights the urgent necessity to abolish not only borders, but the nation-state itself."—A. Naomi Paik, author of *Bans, Walls Raids, Sanctuary: Understanding U.S. Immigration for the Twenty-First Century and Rightlessness: Testimony and Redress in U.S. Prison Camps Since World War II* "Miller's latest book is a personal, wide-ranging, and impassioned call for abolishing borders."—John Washington, author of *The Dispossessed: A Story of Asylum and the US-Mexican Border and Beyond*

And while cracks are beginning to show in Acapulco because of the drug cartels, her life is, by and large, reasonably comfortable. Even though she knows they'll never sell, Lydia stocks some of her all-time favorite books in her store. And then one day a man enters the shop to browse and comes up to the register with four books he would like to buy, two of them her favorites. Javier is erudite. He is charming. The Yellow Wallpaper Oct 15 2019 This short story is regarded as an important early work of American feminist literature, due to its illustration of the attitudes towards mental and physical health of women in the 19th century. Narrated in the first person, the story is a collection of journal entries written by a woman whose physician husband (John) has rented an old mansion for the summer. Forgoing other rooms in the house, the couple moves into the upstairs nursery. As a form of treatment, the unnamed woman is forbidden from working, and is encouraged to eat well and get plenty of air, so she can recuperate from what he calls a "temporary nervous depression – a slight hysterical tendency", a diagnosis common to women during that period.
