Grow the Pie Jan 08 2022 A Financial Times Book of the Year 2020! Should companies be run for profit or purpose? In this ground-breaking book, acclaimed finance professor and TED speaker Alex Edmans shows it's not an either-or choice. Drawing from real-life examples spanning industries and countries, Edmans demonstrates that purpose-driven businesses are consistently more successful in the long-term. But a purposeful company must navigate difficult trade-offs and take tough decisions. Edmans provides a roadmap for company leaders to put purpose into practice, and overcome the hurdles that hold many back. He explains how investors can discern which companies are truly purposeful and how to engage with them to unleash value for both shareholders and society. And he highlights the role that citizens can play in reshaping business to improve our world. This edition has been thoroughly updated to include the pandemic, the latest research, and new insights on how to make purpose a reality.

Great Leaders Grow Sep 16 2022 Successful leaders don't rest on their laurels. Leadership must be a living process, not a title on a business card, and life means growth. As Ken Blanchard and Mark Miller write in the introduction, “the path to increased influence, impact, and leadership effectiveness is paved with personal growth.... Our capacity to grow determines our capacity to lead. It's really that simple.” *Great Leaders Grow* shows leaders and aspiring leaders precisely which areas to focus on so they can remain effective throughout their lives. As the book opens, Debbie Brewster, an accomplished leader herself, becomes a mentor to Blake, her late mentor's son, as he begins his career. Debbie tells Blake, “How well you and I serve will be determined by the decision to grow or not. Will you be a leader who is always ready to face the next challenge? Or will you be a leader who tries to apply yesterday's solutions

to today's problems? The latter will ultimately fail. The difference: the decision to grow. And not a short-term decision but a decision to grow throughout your career and throughout your life. This single decision is a game changer for leaders.” Over the next several weeks Debbie reveals what this means in practical terms. She and Blake explore four ways that leaders must continue to grow, both on the job and off, because who you are as a leader is inextricably connected to who you are as a person. Whether you're a CEO or an entry-level employee, you'll be inspired to reflect on your own life and to design your own unique long-term growth plan, leading to not only continuing professional success but personal fulfillment as well.

Great Grapes Mar 18 2020 Grapes are among the most desirable and best-known fruits, prized for their beauty, their succulence and varied flavors, their noble metamorphosis into wine, and their more utilitarian roles as sources of fresh juice and tasty jellies. For most growers, the triumph of harvesting fragrant clusters of dusky-bloomed grapes in rose, blue-black, amber, purple, or light red bunches is its own reward--a test of gardening skill. In Great Grapes, you'll learn all you need to know to grow superb grapes, including how to: -Choose the most suitable cultivars for your area -Choose the right site -Prepare the soil -Build trellises -Plant and train the vines -Prune for maximum yield -Propagate new vines -Control pests -Harvest the grapes at the peak

of ripeness

Growing Great Employees Jul 02 2021 How to develop an all-star staff, even if you don't know the first thing about managing "Your employees are, like you and me, flawed and hopeful human beings whose success is at least partly dependent on your skill as a manager, human beings who will thrive with skillful and consistent attention and wither without it." Erika Andersen has helped some of the best-managed companies in the world develop their employees. Now she explains how to stay ahead of the competition by investing in your people. You'll discover that: • Listening is your most powerful asset. Use it to motivate and build commitment. • Everything you know

about interviewing is wrong. Discover what you really need in a potential employee. • Successful companies hire for keeps. Get people feeling like part of the team from day one. Whether you're a first-time manager or a senior executive, Andersen will help you create a dynamic workplace, where the efforts you make today will blossom into success for years to come.

Who Do You Want to Be When You Grow Old? Oct 05 2021 Our later years need not be a time of loss. This book helps readers embrace the positive possibilities of aging and provides guidance on doing so purposefully, with courage, compassion, and curiosity. None of us know for sure what will happen as we age. What Richard J. Leider and David A. Shapiro do know, however, is that a purposeful mindset is a fundamental component of a life well-lived. Who Do You Want to Be When You Grow Old? invites readers into the experience of two lifelong friends taking on the courageous conversation of aging well with honesty and purpose. In the first half of the book, readers are introduced to a framework for looking back over their lives and examining how they've arrived at the place they have. In the second half, readers are invited to look forward to purposeful aging with courage, compassion, and curiosity. In their bestseller Repacking Your Bags, Leider and Shapiro defined the good life as “living in the place you belong, with people you love, doing the right work, on

purpose.” This book argues that aging well can be similarly defined as “aging in the place you belong, with people you love, doing the right ‘work,’ on purpose.”

The Permaculture Home Garden Aug 03 2021 Inspired by her own training in permaculture, Linda Woodrow has devised a totally integrated organic system of gardening that combines science with common sense. In *The Permaculture Home Garden* she draws us into a warmly welcoming household where everyone shares the planting, helps to tend the hens, and relaxes after a satisfying day's work. Step-by-step instructions and helpful diagrams make it easy to plan and plant a garden to suit your taste and space - a garden that not only looks wonderful but also yields bountiful fruit, herbs and vegetables.

You Grow Girl Jul 22 2020 This is not your grandmother's gardening book. *You Grow Girl* is a hip, humorous how-to for crafty gals everywhere who are discovering a passion for gardening but lack the know-how to turn their dreams of homegrown tomatoes and fresh-cut flowers into a reality. Gayla Trail, creator of YouGrowGirl.com, provides guidance for both beginning and intermediate gardeners with engaging tips, projects, and recipes -- whether you have access to a small backyard or merely to a fire escape. *You Grow Girl* eliminates the intimidation factor and reveals how easy and enjoyable it can be to cultivate plants and flowers even when

resources and space are limited. Divided into accessible sections like Plan, Plant, and Grow, *You Grow Girl* takes readers through the entire gardening experience: Preparing soil Nurturing seedlings Fending off critters Reaping the bounty Readyng plants for winter Preparing for the seasons ahead *Gayla* also includes a wealth of ingenious and creative projects, such as: Transforming your garden's harvest into lush bath and beauty products Converting household junk into canny containers Growing and bagging herbal tea Concocting homemade pest repellents ...and much, much more. Witty, wise, and as practical as it is stylish, *You Grow Girl* is guaranteed to show you how to get your garden on. All you need is a windowsill and a dream!

Growing Good Food Feb 26 2021 A handbook for growing a victory garden when the enemy is global warming Written by regenerative farmer Acadia Tucker, *Growing Good Food* calls on us to take up regenerative gardening, also known as carbon farming, for the good of the planet. By building carbon-rich soil, even in a backyard-sized patch, we can capture greenhouse gases and mitigate climate change, all while growing nutritious food. To help us get started, and quickly, Tucker draft plans for gardeners who have no space, a little space, or a lot of space. She offers advice on how to prep soil, plant food, and raise the most popular fruits and vegetables using regenerative methods. She shares the gardening tools you need to get started, the top

reasons gardens fail and how to fix them, and how to make carbon farming count when the only dirt you have is in pots. The book includes calls to action and insights from leaders in the regenerative movement, including David Montgomery, Gabe Brown, and Tim LaSalle. Aimed at beginners, the book is designed to inspire an uprising of citizen gardeners. Growing Good Food suggests what could happen if more of us saw gardening as a civic duty. By the end of it, you'll know how to grow some really good food and build a healthier world, too. Growing Good Food: A citizen's guide to backyard carbon farming is part of Stone Pier's "Growing Good Food" series. It joins Growing Perennial Foods: A field guide to raising resilient herbs, fruits, and vegetables, also written by Acadia Tucker.

Grow to be Great Oct 17 2022 No company ever shrank to greatness, conclude Dwight Gertz and João Baptista. Drawing upon their new study of more than 1,000 large companies, the authors argue that managers must move beyond the current wave of downsizing, restructuring, and reengineering. Contrary to current management fads, they contend that companies must grow to be great. Managers now involved in downsizing must consider long-term goals for growth alongside short-term measures for slimming. Gertz and Baptista shatter popular corporate myths by revealing that growth opportunities are everywhere, across all business sectors -- even in stable industries and in companies "too big to grow." Using case studies, Gertz and Baptista analyze successful high-growth firms such as Starbucks, Staples, USAA. They examine not only the strategies followed by these companies -- customer franchise management, superior new product development, and channel management -- but also what they did to make these strategies successful. They discuss how, regardless of differences in strategic approach, the transformations achieved by these firms are based on the same three "foundations for growth": superior customer value, outstanding economics across

the value chain, and excellence in process execution. They demonstrate how these three foundations work together, forming a powerful framework through which to attain corporate goals. Distilling these findings into useful tools for the evaluation of any strategy, Gertz and Baptista show how those facing the difficult task of turnaround can get back to growth. By examining improvements at four companies within the context of their growth framework, they analyze the combination of inspiration, leadership, and technique which has enabled these firms to prosper. Shifting the focus from cost-cutting to growth is a challenge that thousands of companies must now face. Gertz and Baptista have given CEO's, managers, and consultants in every industry a clear framework from which to build sustainable growth in revenues and profits. This book is a practical and colorful guide for those who want to grow to be great.

Great Minds and How to Grow Them May 12 2022 Great Minds and How to Grow Them is a handbook for parents that shows how they can grow the minds of their children and teenagers and guide them to success both at school and in life. The latest neurological and psychological research is proving that most children are capable of reaching high levels of performance that were previously associated only with the

gifted and talented. Brains are malleable and IQ is not fixed yet, without parental engagement in their learning, many children don't reach the levels of performance that are associated with academic success. Combining new knowledge with extensive research into how we learn, this book proves that by using simple, everyday techniques that are both rooted in research and accessible for parents, children can learn to learn more successfully. There is room at the top of the class for many more children than we ever thought possible. An engaging collaboration between a world-class academic and an award-winning journalist, this inspirational book includes chapters on: how to develop a good home learning environment; how to make the most of school; how to develop values, attitudes and attributes that are associated with success at school and in life; how to develop thinking and learning skills in the three ages of learning; how to tackle potentially tricky areas like homework and adolescence. This practical guide will be essential reading for parents, teachers and all those interested in helping children and young people to reach their full potential.
