Il museo diventa impresa. 13 2022 Il museo non può più essere considerato solo un contenitore per beni culturali di alto interesse storico-artistico, ma un'istituzione didattica che deve rispondere alle nuove esigenze di pubblici sempre più ampi e diversificati. La struttura museale si apre a nuove strategie di coinvolgimento, a inedite modalità di interazione e a offerte culturali sempre più orientate alla fidelizzazione. Il divertimento, la socializzazione, l'interazione con i diversi mondi della conoscenza, la divulgazione delle collezioni con un approccio interdisciplinare e l'auto-finanziamento diventano elementi imprescindibili. Il museo diventa impresa entrando nel mercato delle aziende private e del tempo libero delle persone.

Corruption and Development
Oct 30 2020 This collection examines anti-corruption campaigns and argues that they have often resulted in perverse and unintended consequences. The book examines how corruption has been addressed (and sometimes tolerated) in Africa, Asia, Latin America and East & Central Europe to interrogate government policy and question development discourse and practice.

Advances in Gender and Cultural Research in Business and Economics
Dec 24 2022
This volume presents current research on gender and culture from business, management and accounting perspectives with a multidisciplinary approach. Featuring selected contributions presented at the 4th IPAZIA Workshop on Gender Studies held at Niccolò Cusano University in Rome, Italy, this book investigates gender strategies adopted and tested by various companies and assesses the impact of their subsequent dissemination. The contents are structured into four sections each of which addressing a specific theme on gender studies as follows: I) Women in Academia and in the University contexts: A trans-disciplinary approach; II) Gender issues, Corporate Social Responsibility and reporting; III) Woman in business and female entrepreneurship; IV) Women in Family Business. The result is a book that provides an innovative and rigorous analysis of gender issues proposing new challenges and insights in gender studies. IPAZIA Scientific Observatory for Gender Studies defines an updated framework of research, services, and projects for all initiatives related to women and gender relations at the local, national and international. In order to achieve this objective, the Observatory aims to implement the literature on gender studies, to organize and promote scientific significant initiatives (workshops, seminars, conferences, studies, scientific laboratory) on these issues at the national and international level under an interdisciplinary perspective.

Cooperative ed enti non profit
Feb 20 2019 E-Book speciale, dedicato al 52° Congresso Nazionale UNGDCEC, con i contributi più significativi pubblicati negli ultimi due anni sulla rivista Cooperative e Enti non profit, inerenti le tematiche oggetto dei lavori congressuali, per offrire una panoramica il più possibile esaustiva del terzo settore e della cooperazione, settori che possono aprire nuove opportunità per i professionisti, sia in termini di mercato, sia in termini di proposta nei confronti dei propri clienti. E' sempre più condiviso, infatti, il convincimento che cooperative, mutue, imprese sociali e associazioni di volontariato possano concretamente contribuire alla ripresa economica, non solo in termini di produttività, ma anche con

creazione di occupazione e di risposta alle esigenze dei servizi alla persona (sociali, sanitari ed educativi), alle comunità (gestione delle risorse idriche, smaltimento rifiuti, produzione di energia da fonti rinnovabili, trasporti locali). STRUTTURA - Finanza cooperativa e del terzo settore - Coop e non profit come strumento anti - Start up e la forma cooperativa - Associazioni sportive dilettantistiche (accertamento) - Gestione - Impresa sociale - Valorizzazione del terzo settore - Vigilanza e sanzioni nelle coop

Couples That Work Feb 20 2020 Finding fulfillment in both love and work isn't easy--but it's possible. The majority of couples today are dual-career couples. As anyone who's part of such a relationship knows, this presents big challenges: trying to raise kids and achieve career goals while caring for and supporting your partner can seem impossible. Yet most advice for dual-career couples fails, framing the challenges as a zero-sum game in which one partner's gain is the other's loss and solutions feel like sacrifices or unsatisfactory trade-offs. This book is different. In *Couples That Work*, INSEAD professor Jennifer Petriglieri rejects conventional, one-size-fits-all solutions and instead focuses on how dual-career couples can tackle and resolve the challenges they face throughout their lives--together. She identifies three key phases of exploration and personal growth in every couple's work-life journey, showing how partners must navigate these together to strengthen the bond. Each phase is crystallized with a question: How can we make this work? The first phase focuses on the logistics of combining two busy lives and often involves the demands of young children. What do we really want? In the second phase, couples learn to navigate their midlife crises in ways that allow each partner to continue to feel happy and fulfilled. Who are we now? With careers winding down and kids grown up, this last phase offers new freedoms--and uncertainties. Based on a five-year research project, the book includes interviews with couples from over thirty countries--from executives to entrepreneurs and from twentysomething newlyweds to dual-career grandparents. Filled with vivid real-life stories, keen insights, and engaging exercises, *Couples That Work* will help couples develop their own unique answers to that most pressing question: How can we successfully combine love and work?

Personal Fundraising e Crowdfunding Jun 18 2022 Le piattaforme di crowdfunding sono un nuovo metodo di raccolta fondi che si sta espandendo, dimostrando di essere validi strumenti di finanziamento per sostenere iniziative e progetti, a livello nazionale e internazionale. La ricerca, alla base di questo libro, è il primo studio c

analizza, attraverso un'analisi quantitativa relativa ad un campione di aziende non profit italiane, il fenomeno del crowdfunding donation based e del personal fundraising e identifica i meccanismi di funzionamento valutando i risultati e i relativi impatti sull'attività di raccolta fondi. L'obiettivo del libro è quello di delineare il profilo dell'organizzazione non profit che svolge crowdfunding e quello del personal fundraiser e di definire le modalità per condurre con successo una campagna di crowdfunding e personal fundraising, in cui la gestione della relazione tra azienda non profit e personal fundraiser deve essere condotta con flessibilità e fiducia. In questo contesto la piattaforma si configura come uno strumento di facilitazione per l'ampliamento della rete del fundraiser, in cui la comunicazione trasparente e la misurazione dei risultati in tempo reale sono i presupposti per poter attrarre donatori prospect laddove l'azienda non profit coinvolta è in grado di sviluppare un legame forte con la comunità di riferimento online ed offline. Il libro presenta, inoltre, alcuni esempi di imprese che hanno attivato azioni di corporate crowdfunding.

Raccolta fondi e welfare di prossimità **06 2021**

L'impatto della pandemia sul sistema socio-sanitario **Mar 15 2022** Il volume traccia un'osservazione sociologica su alcuni aspetti accaduti durante la fase acuta della pandemia e nei mesi successivi, in relazione alle fasce deboli della popolazione e all'adeguatezza dimostrata nella circostanza dai servizi sociali e socio-sanitari. Benché sia limitata ad alcuni ambiti che non esauriscono né la varietà dei servizi offerti, né la complessità degli eventi accaduti, emerge chiara la necessità di un ripensamento di questi ultimi, partendo dal contributo che è in grado di proporre. Il sociologo, figura utile proprio perché in possesso degli strumenti conoscitivi, metodologici e valutativi, essenziali per una riconfigurazione che sappia dare risposte innovative e maggiormente adeguate alle istanze che l'emergenza ha messo in luce. Il volume si rivolge quindi al personale socio sanitario e, in particolar modo, agli studenti sociologi interessati all'analisi del sistema socio sanitario di cui il volume rappresenta una possibile chiave di lettura dei fenomeni che lo caratterizzano.

Youth work in Europe e in Italia **Dec 12 2021** A livello europeo l'espressione youth work si riferisce a un insieme di pratiche socioeducative rivolte ai giovani in una sfera di confine tra quella informale (famiglia, gruppo dei pari, socialità online ecc)

e quella formale (scuola, università, formazione professionale ecc.). Soprattutto s
impulso dell'Unione Europea e del Consiglio d'Europa, in Italia si osserva un
rinnovato interesse verso questo settore, denominato animazione socioeducativa
giovanile nella traduzione dei documenti europei. Il libro ripercorre il processo di
sviluppo di una comunità di pratica tra gli operatori di youth work in Europa, per
poi esplorare la pluralità di tradizioni e attori che in Italia si possono far ricadere
questo specifico settore. L'autore, inoltre, traccia alcune linee di un percorso di
riconoscimento istituzionale e di sviluppo professionale dell'animazione
socioeducativa giovanile, oltre a inquadrarla come ambito di ricerca sociologica e
valutativa in relazione al più generale processo di pluralizzazione dei contesti
educativi e formativi.

Più fundraising Più cultura Apr 16 2022 +FUNDRAISING + CULTURA è un
evento ideato dalla Scuola di Fundraising di Roma e co-prodotto con Patrimonio
Cultura dedicato interamente al tema della sostenibilità del sistema e degli enti
culturali grazie al fundraising. Riunisce tutti gli stakeholder pubblici e privati del
settore per elaborare politiche e azioni che facciano crescere in qualità e quantità
fundraising culturale, impegnandosi per la loro attuazione.

Ageing with Smartphones in Urban Italy Feb 02 2021 'Who am I at this (st)age?
Where am I and where should I be, and how and where should I live?' These
questions, which individuals ask themselves throughout their lives, are among the
central themes of this book, which presents an anthropological account of the
everyday experiences of age and ageing in an inner-city neighbourhood in Milan,
and in places and spaces beyond. Ageing with Smartphones in Urban Italy explores
ageing and digital technologies amidst a backdrop of rapid global technological
innovation, including mHealth (mobile health) and smart cities, and a number of
wider socio-economic and technological transformations that have brought about
significant changes in how people live, work and retire, and how they communicate
and care for each other. Based on 16 months of urban digital ethnographic research
in Milan, the smartphone is shown to be a 'constant companion' in, of and for
contemporary life. It accompanies people throughout the day and night, and
through individual and collective experiences of movement, change and rupture.
Smartphone practices tap into and reflect the moral anxieties of the present
moment, while posing questions related to life values and purpose, identities and
belonging, privacy and sociability. Through her extensive investigation, Shireen
Walton argues that ageing with smartphones in this contemporary urban Italian
context is about living with ambiguity, change and contradiction, as well as
developing curiosities about a changing world, our changing selves, and changing
relationships with and to others. Ageing with smartphones is about figuring out
best to live together, differently.

Siamo tutti stakeholder? Jan 19 2022

Governing Public Hospitals Nov 11 2021 Governance of public hospitals in Europe is changing. Individual hospitals have been given varying degrees of semi-autonomy within the public sector and empowered to make key strategic, financial, and clinical decisions themselves. This study explores the major developments and their implications for national and European health policy. The study focuses on hospital-level decision-making and draws together both theoretical and practical evidence. It includes an in-depth assessment of eight different country models of semi-autonomy in the Czech Republic, England, Estonia, Israel, the Netherlands, Norway, Portugal and Spain. The evidence that emerges throws light on the shifting relationships between public-sector decision-making and hospital-level organizational behaviour and will be of real and practical value to those working with this increasingly important and complex mix of approaches. [Ed.]

Il fundraising socio-sanitario Feb 26 2023

Structured Finance Jul 07 2021 This book, now in its second edition, provides an in-depth overview of all segments of the structured finance business, with particular reference to market trends, deal characteristics and deal structuring. The goal is to assist readers in gaining a clear understanding of the common features of structured finance transactions. The process of deal structuring for each type of transaction is carefully analyzed, with extensively updated chapters on asset securitization, project finance, structured leasing transactions and leveraged acquisitions. In the new edition, particular attention is paid to novel areas of intervention, such as public-private partnerships and non-performing loans in the resolution of bank restructuring. Although the subject of much criticism, structured finance, when used properly, offers an effective solution to the credit crunch that many European countries are suffering and is also a way to revive a single capital market for derivatives instruments. Readers will find this book to be an illuminating guide to the business and to the best market practices in organizing transactions. It will be of value for BSc and MSc finance students, professionals and consultants alike.

Health and Society in Britain Since 1913 Jan 25 2020 British health policy has undergone enormous change in the post-war era. The NHS established in the post-war period has been constantly reorganised, and the role of doctors and associated medical professions has radically changed. This book considers the changes in health policy and in the service provided by the NHS, and examines in detail the 'mixed economy' of health care and the role of different providers of health care, as well as their relationships both with recipients of care and the state. In doing so

Professor Berridge sheds light on the increasingly important part that lay people, especially women, have played in the provision of health care and looks at community care and the shifting balance of power within the medical profession. The book provides a guide to changes in health and health policy during and since World War II, giving an authoritative analysis of the most recent research.

Il fundraising socio-sanitaria on 25 2023

Corporate Social Responsibility in the Global Business World 2019 This book provides an overview of the application of Corporate Social Responsibility in businesses and corporations around the world. Primarily based on real cases, it focuses on different approaches to CSR from a global perspective. It provides a critique of the "wrong" practices often employed even by multinational organizations, and highlights the resultant negative effects. On the other hand, the book demonstrates good examples that can help multinationals or even entire countries to achieve both a better reputation and increased profitability. "CSR in the Global Business World" is a rich resource of illustrative cases, serving both as a basis for ongoing research as well as for teaching purposes at the business school level.

Emergent Public Health Issues in the US-Mexico Border Region 2021 US-Mexico border region area has unique social, demographic and policy forces at work that shape the health of its residents as well as serves as a microcosm of migration health challenges facing an increasingly mobile and globalized world. This region reflects the largest migratory flow between any two nations in the world. Data from the Pew Research Center shows over the last 25 years there has never been lower than 140,000 annual immigrants from Mexico to the United States (peaks over 700,000). This migratory route is extremely hazardous due to natural (e.g., arid and hot desert regions) and human made barriers as well as border enforcement practices tied to socio-political and geopolitical pressures. Also, reflecting the national interdependency of public health and human services needed during the most recent five year period surveyed the migratory flow between the US and Mexico has equaled that of the flow of Mexico to the US--both around 1.4 million persons. Of particular public health concern, within the US-Mexico region both nations there is among the highest disparities in income, education, infrastructure and access to health care--factors within the World Health Organization's conceptualization of the Social Determinants of Health, and among the highest rates of chronic disease. For instance obesity and diabetes rates in the region are among the highest of those monitored in the world, with adult population estimates of the former over 40% and estimates in some population sub-groups the latter over 20%. The publications reflected in this Research Topic, all reviewed from experts in the field, addressed many of the public health issues in the US

Mexico Border Health Commission's Healthy Border 2020 objectives. Those objectives-- broad public health goals used to guide a diverse range of government research and community-based stakeholders--include Non Communicable Diseases (including adult and childhood obesity-related ones; cancer), Infectious Diseases (e.g., tuberculosis; HIV; emerging diseases--particularly mosquito borne illnesses), Maternal and Child Health, Mental Health Disorders, and Motor Vehicle Accidents. Other relevant public health issues affecting this region, for example environmental health, binational health services coordination (e.g., immunization), the impact of migration throughout the Americas and globally in this region, health issues related to the physical climate, access to quality health care, discrimination/mistreatment and well-being, acculturative/immigration stress, violence, substance use/abuse, health, respiratory disease, and well-being from a social determinants of health framework, are critical areas addressed in these publications or for future research. Each of these Research Topic publications presented applied solutions (e.g., new programs, technology or infrastructure) and/or public health policy recommendations relevant to each public health challenge addressed.

Il marketing sanitario. Il marketing per aziende sanitarie, ospedaliere, centri salute ambulatori e studi medici Feb 14 2022

Charity and Mutual Aid in Europe and North America since 1800s 2020
International in perspective, the essays in this volume are primarily concerned with two facets of the mixed economy of welfare--charity and mutual aid. Emphasizing the close relationship between these two elements and the often blurred boundaries between each of them and commercial provision, contributors raise crucial questions about the relationship between rights and responsibilities within the mixed economy of welfare and the ties which bind both the donors and recipients of charity and the members of voluntary organisations. The volume critically assesses the relationships between the statutory and voluntary sectors in a variety of national settings, including Britain, the United States, the Netherlands, Sweden, Norway, Canada, and Germany during the last two hundred and fifty years, making the book as topical as it is significant.

Who Owns Whom? Apr 04 2021

Delphi Complete Works of Masaccio (Illustrated) Apr 23 2020 The first great artist of the Quattrocento period of the Italian Renaissance, Masaccio would have an incredible impact on the course of Western art, in spite of his untimely death at age of twenty-six. He is noted for his skill in imitating nature, recreating lifelike figures and his unprecedented use of chiaroscuro and three-dimensionality.

Preparing the way for Leonardo and Michelangelo, Masaccio transformed the direction of Italian painting, moving it away from the idealisations of Gothic art and favouring the depiction of a more profound, natural and humanist world. Delphi's Masters of Art Series presents the world's first digital e-Art books, allowing readers to explore the works of great artists in comprehensive detail. This volume presents Masaccio's complete works in beautiful detail, with concise introductions, hundreds of high quality images and the usual Delphi bonus material. (Version 1) * The complete paintings of Masaccio, fully indexed and arranged in chronological and alphabetical order * Includes reproductions of rare works * Masolino's and Filippino Lippi's contributions to the celebrated Brancacci Chapel * Features a special 'Highlights' section, with concise introductions to the masterpieces, giving valuable contextual information * Enlarged 'Detail' images, allowing you to explore Masaccio's celebrated works in detail, as featured in traditional art books. Numerous images in colour – highly recommended for viewing on tablets and smartphones or as a valuable reference tool on more conventional eReaders * Special chronological and alphabetical contents tables for the paintings * Easily locate the paintings you wish to view * Features two bonus biographies, including Vasari's Life of the artist – discover Masaccio's world Please visit www.delphiclassics.com to browse through our range of exciting e-Art books

Il fundraising per la cultura **Sep 21 2022** Il testo propone un confronto tra i modelli di fundraising culturale del mondo anglosassone e l'esplorazione delle sue potenzialità nel nostro paese.

San Juan de Dios en España (1950-2020) **Nov 1 2021** Monografía sobre la historia de la Orden de San Juan de Dios en España desde 1950 hasta nuestros días.

Real-World Decision Support Systems **Nov 18 2019** This book presents real-world decision support systems, i.e., systems that have been running for some time and such have been tested in real environments and complex situations; the cases are from various application domains and highlight the best practices in each stage of the system's life cycle, from the initial requirements analysis and design phases

the final stages of the project. Each chapter provides decision-makers with recommendations and insights into lessons learned so that failures can be avoided and successes repeated. For this reason unsuccessful cases, which at some point in their life cycle were deemed as failures for one reason or another, are also included. All decision support systems are presented in a constructive, coherent and deductive manner to enhance the learning effect. It complements the many works that focus on theoretical aspects or individual module design and development by offering 'good' and 'bad' practices when developing and using decision support systems. Combining high-quality research with real-world implementations, it is of interest to researchers and professionals in industry alike.

The Political Economy of the Hospital in History
July 28, 2020
The modern hospital is at once the site of healing, the locus of medical learning and a cornerstone of the welfare state. Its technological and infrastructural costs have transformed health services into one of today's fastest growing sectors, absorbing substantial proportions of national income in both developed and emerging economies. The aim of this book is to examine this growth in different countries, with a main focus on the twentieth century, and also with a backward glance to earlier shaping forces. It will explore the hospital's economic history, the relationship between public and private forms of provision, and the political context in which health systems were constructed. The collection advances the historical world map of different hospital models, ranging across Spain, Brazil, Germany, East and Central Europe, Britain, the United States and China. Collectively, these comparative cases illuminate the complexities involved in each country and bring new historical evidence to current debates on health care organisation, financing and reform.
