Antigravity Nov 23 2022 ****Alpha version, work in progress, see notice at the end of the text**** Marius Alexander Forselius was born in Romania 1991, only a few years after the Romanian communist regime was overthrown in december 1989. He was adopted to Sweden in 1994, and got diagnosed with autism at five year age. In this book he explains the in and out of his life with his disorder, and describes how his life have been until now, with success and failures, and strategies to success. One thing he explains is how he through meditation and physical exercise could defy the gravity and get in contact with his feminine spirit, when he swim or meditate, and how the different twists in his life have gave him new insights and strength. For example, he explains about his water visualization meditation - which helped her to find his inner soul, after a fungal infection forced he to stop swimming, and how his "virtual bathing" (as he explains), helped him to recover mentally from the fungal crisis and at the same time feel more confident in himself. With the computer as analogy, he explains how his brain works, like a computer system which "iterates the whole tree structure" without filter to he context, and then being overload and freezes. And he also explains about his creative career, in music and software engineer studies, and how his music interest was the key to resolve the 'fungal crisis'. Note: This is a translation in ALPHA of my Swedish book "Jag Upphäver Gravitationen" that were a mixture of human and machine translation in order to be able to get an international version as soon as possible. Spelling and grammar errors might are present. I will provide a more accurate translation at a later time. This book contains a subset of the chapters from the original Swedish edition.

Encounters and Practices of Petty Trade in Northern Europe, 1820–1960 Mar 23 2020 This open access book uncovers one important, yet forgotten, form of itinerant livelihoods, namely petty trade, more specifically how it was practiced in Northern Europe during the period 1820–1960. It investigates how traders and customers interacted in different spaces and approaches ambulatory trade as an arena of encounters by looking at everyday social practices. Petty traders often belonged to subjugated social groups, like ethnic minorities and migrants, whereas their customers belonged to the resident population. How were these mobile traders perceived and described? What goods did they peddle? How did these commodities enable and shape trading encounters? What kind of narratives can be found, and whose? These questions pertaining to daily practices on a grass-root level have not been addressed in previous research. Encounters

and Practices embarks on hidden histories of survival, vulnerability, and conflict, but also discloses reciprocal relations, even friendships.

Pricing long-term care for older persons Jan 01 2021 The purpose of the book is to meet the WHO GPW output of 1.2.1 - Countries enabled to develop and implement equitable health financing strategies and reforms to sustain progress towards universal health coverage. It falls under the WKC research plan for sustainable financing under population ageing. The country studies and policy briefs will be continued in 2022-23, under the technical product of “sustainable financing in the context of population ageing.” The target audience is WHO member states and their supporting academic institutions and policymakers.

Lost and Found in Mathematics. Dissident cosmologists’s guide to the Universe Apr 23 2020 This book is inspired by a German theoretical physicist, Sabine Hossenfelder’s publication: “Lost in Mathematics”. Her book seems to question highly mathematical and a lot of abstraction in the development of physics and cosmology studies nowadays. There is clear tendency that in recent decades, the physics science has been predominated by such an advanced mathematics, which at times sounding more like acrobatics approach to a reality. Through books by senior mathematical-physicists like Unzicker and Peter Woit, we know that the answer of TOE is not in superstring theories or other variations of such 26 dimensional bosonic string theory, of which none of those theories survived experimental test, but perhaps in low dimensional physics. As Alexander Unzicker suggests, perhaps it is more advisable to consider rotation in 3D space (known as SO3), or a kind of superfluid vortices version of gravitation theory. We can also reconsider proposition by the late Prof F. Winterberg (formerly professor at Univ. Nevada, Reno), that it is most likely that superfluid phonon roton theory in 3D can replace the entire superstring theories. While we don’t explore yet implications of his model to particle physics, we discuss here some published papers at several journals in the past few years.

Meandering in Transition Jan 21 2020 The book addresses the dynamics of the post-Communist transition and identity building in Central Eastern Europe. It scrutinizes the formation of geopolitical affiliations and discourses of belonging. It also traces the dynamics of national decision-making, institution-building and changing perceptions of the region by global actors.

UNISET 2020 Dec 12 2021 The Universitas Kuningan International Conference on Social Science, Environment and Technology (UNISET) will be an annual event hosted by Universitas Kuningan. This year (2020), will be the first UNISET will be held on 12 December 2020 at Universitas Kuningan, Kuningan, West Java, Indonesia. "Exploring Science and Technology to the Improvement of Community Welfare" has been chosen at the main theme for the conference, with a focus on the latest research and trends, as well as future outlook of the field of Call for paper fields to be included in UNISET 2020 are: Social Sciences, Civil and Environmental Engineering, Mechanical Engineering and Technology, Electrical Engineering, Material Sciences and Engineering, Food and Agriculture Technology, Informatics Engineering and Technologies, Medical and Health Technology. The conference invites delegates from across Indonesian and South East Asian region and beyond, and is usually attended by more than 100 participants from university academics, researchers, practitioners, and professionals across a wide range of industries.

Proceedings of the International Conference on Applied Science and Technology on Social Science 2022 (iCAST-SS 2022) Sep 09 2021 This is an open access book. The 5th International Conference on Applied Science and Technology (iCAST) 2022, organized by the Indonesian Polytechnics Consortium will be held in Samarinda, East Kalimantan, Indonesia from 23-24 October 2022. This prestigious conference is aimed at bringing together researchers and experts in intelligent technology and social science from educational institutions, R & D, industry, government and the community to exchange and share ideas or knowledges through a discussion of a wide range of issues related to Smart Manufacturing in Digital Transformation Industri 4.0 for Sustainable Economic Growth to Face Society 5.0.

Well-being, Sustainability and Social Development Oct 22 2022 This open access book examines more than two centuries of societal development using novel historical and statistical approaches. It applies the well-being monitor developed by Statistics Netherlands that has been endorsed by a significant part of the international, statistical community. It features The Netherlands as a case study, which is an especially interesting example; although it was one of the world's richest countries around 1850, extreme poverty and inequality were significant problems of well-being at the time. Monitors of 1850, 1910, 1970 and 2015 depict the changes in three dimensions of well-being: the quality of life 'here and now', 'later' and 'elsewhere'. The analysis of two centuries shows the solutions to the extreme poverty problem and the appearance of new sustainability problems, especially in domestic and foreign ecological systems. The study also reveals the importance of natural capital: soil, air, water and subsoil resources, showing their relation with the social structure of the 'here and now'. Treatment and trade of natural resources also impacted on the quality of life 'later' and 'elsewhere.' Further, the book illustrates the role of natural capital by dividing the capital into three types of raw materials and concomitant material flows: bio-raw materials, mineral and fossil subsoil resources. Additionally, the analysis of the institutional context identifies the key roles of social groups in well-being development. The book ends with an assessment of the solutions and barriers offered by the

historical anchoring of the well-being and sustainability issues. This unique analysis of well-being and sustainability and its institutional analysis appeals to historians, statisticians and policy makers.

Hitam Putih Negara Maritim: Esai-Esai Kritis Kesejahteraan Nelayan Feb 26 2023 Pengelolaan potensi maritim Indonesia yang sangat melimpah perlu ditinjau ulang dari semua sisi agar pemanfaatannya lebih dapat dilakukan secara bijak dan optimal. Dalam hal ini nelayan sebagai aktor utama pengelola potensi maritim harus didukung, diarahkan, dan diayomi oleh pemerintah, dengan harapan kesejahteraan dan taraf hidup nelayan dapat meningkat. Sebab bila dicermati, kesejahteraan nelayan menjadi bagian dari isu strategis eksistensi negara maritim. Keberhasilan negara dalam menyejahterakan nelayan mengindikasikan keberhasilannya sebagai negara maritim. Buku Hitam Putih Negara Maritim: Esai-Esai Kritis Kesejahteraan Nelayan, berisi gagasan kritis sang penulis, Rusdianto Samawa, mengenai kebijakan kelautan dan kemaritiman di Tanah Air selama ini, terutama lebih ditekankan pada hal-hal yang berkaitan langsung dengan kesejahteraan nelayan. Buku ini dibagi ke dalam enam bagian, masing-masing diulas secara lugas dan bernas dan disertai rujukan-rujukan yang memadai.

ISSHE 2020 Nov 11 2021 International Seminar on Social Science, Humanities and Education (ISSHE) is motivated by efforts to increase the quality of research and respond to the development of studies related to social science, humanities and education fields. This seminar aims: (1) to bring together all scientists, researchers, practitioners, and lecturers, (2) to share and discuss theoretical and practical knowledge about social science, humanities and education fields. The conference was held virtually by using Zoom on November, 25th 2020. The host of the conference was the Faculty of Cultural Sciences of Universitas Haluoleo, Kendari, Indonesia in collaboration with Graduate Program of Linguistics Universitas Warmadewa, Denpasar-Bali, Indonesia. By organising the seminar, it is expected it can be used as a scientific forum to accommodate discussions among young researchers originated from Indonesia in the fields of social science, humanities, and education. Therefore, the keynote speakers and invited speakers in the seminar are the researchers that are reputable and well-known in the world. We would like to thank the organising committee and the board of reviewers for their kind assistance and intention in reviewing all the papers. We would also extend our best gratitude to keynote speakers for their invaluable contributions and worthwhile ideas shared in the seminar. As a result, ISSHE is expected to be able to be used as academic media to exchange ideas that will impact on conduction of any study related to social science, humanities, and education phenomena.

Smitta Aug 28 2020 Smittsamma utbrott kan anta många former; från innovationer till gängkriminalitet. Ibland vill vi att saker ska ta fart, ibland är det livsavgörande att de stannar upp. För varje virus som hoppar från djur till människa och blir en pandemi är det miljoner som inte infekterar någon alls. Under det senaste året har vi blivit bekanta med begrepp som de flesta av oss inte tänkt särskilt mycket på förut: reproduktionstal, superspridare och flockimmunitet är några av dem. De matematiska modeller som beskriver virusets spridning påverkar myndigheternas åtgärder och har stor effekt på våra liv. Matematikern och epidemiologen Adam Kucharski har lyckats med konststycket att skriva en bladvändare utifrån dessa modeller. Forskning kring sjukdomsutbrott löper som en röd tråd i boken, men idag används samma modeller också för att förstå och förutspå smittsamma fenomen inom helt andra fält. Författaren beskriver dessa dolda lagar, han kopplar samman saker som ter sig vitt skilda och förklarar dem på nya sätt: hur finanskriser betar sig som sexuellt överförbara sjukdomar och hur metoder som användes för att utrota smittkoppor nu tas i bruk för att minska våld med skjutvapen. Han visar på mönster och logik i det som ter sig nyckfullt, enormt och ogreppbart. Smitta berättar mycket om mänskligt beteende, den moderna världen och hur vi försöker förutspå framtiden.

NS-UNISM 2019 Jan 25 2023 This proceeding contains selected papers from the National Seminar on "The Role and Strategy of Higher Education through the Results of Research and Community Service Entering the Industrial Age 4.0" which conducted on November 23rd, 2019 in Banjarmasin, Indonesia. This National Seminar was organized by Sari Mulia University, Banjarmasin, Indonesia. This conference accommodates research topics and community service from various aspects such as health, humanities, science and technology. We would like to express our appreciation and gratitude to the invited experts who have provided insights to the participants of this national seminar, as well as the research committee and paper reviewers who have worked hard until there are 95 papers worthy of publication in the NS-UNISM 2019 proceedings. Papers in this proceedings are expected to provide academic benefits, especially in broadening our horizons of understanding in our area of expertise as academics and practitioners. We realize that what

we present for this publication is far from perfect. Constructive criticism is welcome for improvement. Finally, I represent the national seminar committee and also on behalf of the Sari Mulia University, Banjarmasin, Indonesia expressing my gratitude for participating and congratulating the publication of the paper in the NS-UNISM 2019. We from the Civitas Academica Sari Mulia University, together with the Committee also want to say thank you so much to all persons who have supported and actively participated in the success of this event. Hopefully this proceeding can be used as a reference in developing academic studies, technology and improving learning activities in the fields of health, humanities, and science and technology. ICEMS 2019 Sep 28 2020 Proceedings of the 5th International Conference on Education in Muslim Society (ICEMS) contain papers from researchers, academicians, teachers, school principals, government agencies, and consultants in various fields of education, social sciences, humanities, Arabic and English linguistics. There were 110 full papers submitted and after reviewed by at least two reviewers, 39 of them are successfully published in the proceedings. The articles were submitted and presented at the 5th ICEMS held by Faculty of Educational Sciences (FITK) supported by Center for Research and Community Service (LP2M) UIN Syarif Hidayatullah Jakarta. The 5th ICEMS centers on the issue of creativity and innovation in teaching and learning, a crucial issue to be discussed to improve the teaching and learning quality which in turn ultimately raise the overall education quality. In the future, the subsequent proceeding would be able to consistently grow into one prestigious annual proceeding by publishing papers from varied different fields of study, particularly in education.

Den obeboeliga planeten Jun 06 2021 "Jag lovar er, det är mycket värre än ni tror". Med denna ödesmättade mening inledde David Wallace-Wells sin artikel "Den obeboeliga planeten" som snabbt blev den mest lästa i New York Magazines historia. I boken, som bygger ut artikelns premisser, försöker han ge en sannare bild av klimatförändringarnas förödande konsekvenser, i polemik mot det önsketänkande som velat tona ner efterverkningarna. "Den obeboeliga planeten" har hyllats av kritikerkåren – "den mest omskakande bok jag någonsin läst" stod det i The New York Times – och legat på den amerikanska bestseller-listan: "Detta är en djupverkande bok som på en och samma gång gör mig livrädd och hoppfull inför framtiden." (Jonathan Safran Foer). Översättare: Hjalmar Manfred Svensson, Omslagsformgivare: Sara R. Acedo

Övervakningskapitalismen Jul 27 2020 I detta mästerverk byggt på banbrytande tänkande och årtal av forskning skildrar Shoshana Zuboff fenomenet som hon döpt till övervakningskapitalismen. Vår digitala framtid har kidnappats av företagen från Silicon Valley som äger och styr internet. I den nya ekonomin är vi inte bara konsumenter, inte heller produkter vi är råvaran. Zuboff visar hur företag som Google och Facebook använder information om oss, inte bara till att förutspå vårt beteende och kunna skraddarsy innehåll och reklam, utan också till att påverka våra val som kunder, medborgare och människor. Motståndet mot övervakningskapitalismen har hittills varit svagt från både lagstiftarna och civilsamhället. Tills nu har vi villigt överlämnat våra ansikten, åsikter och vänskapsband till techbolagen, tänkt jag har inget att dölja. Men det är inte för sent att ta tillbaka makten, menar Zuboff och skriver: Om du inte har något att dölja, så är du

ingenting. ...den viktigaste boken som ges ut det här århundradet. Zadie Smith Shoshana Zuboff har skrivit en lärd, intelligent och välresonerad bok som inte bara upplyser och skakar om, utan även ger oss en chans att bjuda motstånd mot den förfärliga nya verklighet som smugits på oss. Peter Englund

Verheffing en solidariteit Dec 20 2019 De eerste vakvereniging voor katholieke musici was klein en voor een specifieke doelgroep, maar slaagde erin om in de woelige twintigste en eenentwintigste eeuw staande te blijven. In deze cultuurhistorische studie wordt de geschiedenis van de Katholieke Dirigenten en Organisten Vereniging beschreven in de steeds wisselende context van haar tijd, zoals de kerkelijke richtlijnen van het motu proprio (1903) en het Tweede Vaticaans Concilie (1962-1965), de ontwikkeling van het muziekonderwijs, de crisis van de jaren 1930, de Tweede Wereldoorlog en de periodes van wederopbouw, economische groei en ontkerkelijking. Als vakorganisatie op levensbeschouwelijke grondslag behartigde de vereniging zowel de materiële als de immateriële belangen van haar leden. Acties voor betere arbeidsvoorwaarden gingen gepaard met aandacht en inzet voor de verbetering van de muzikale en liturgische kwaliteiten van de musici. Daarbij koesterde de vereniging haar identiteit en verdedigde ze haar autonomie en zelfstandigheid.

BTW-Wetgeving 2018 Feb 20 2020 De ervaring leert dat voor vele praktijkbeoefenaars de wetteksten inzake btw doordrongen zijn van onduidelijkheden en soms cryptische verwijzingen. In deze uitgave worden daarom niet alleen de wetteksten weergegeven, maar ook verduidelijkingen en referenties. Het is dan ook de uitdrukkelijke bedoeling van dit werk om, naast de volledige en correcte wetteksten (zowel Belgische als Europese), een bijkomende houvast te bieden in de vorm van korte aanvullende verduidelijkingen. Een extra meerwaarde vormen verwijzingen naar de belangrijkste aanschrijvingen/circulaires en de recentste administratieve beslissingen waardoor men ogenblikkelijk weet dat er een administratief standpunt bestaat dat van belang is.

PEREMPUAN MELAWAN KEKERASAN Aug 08 2021 Buku ini bukan tentang upaya perempuan melawan kekerasan melalui jalur hukum, juga bukan perjuangan perempuan melalui politik formal. Ini cerita tentang perempuan dalam politik keseharian, dalam interseksionalitas yang membentuk agensinya. Tentang perempuan yang melawan kekerasan dengan mengonstruksi makna, menciptakan ruang pembebasan, dan membangun solidaritas menuju identitas yang tidak pernah jadi. Menjadi menarik, pengetahuan perempuan dideskripsikan secara genealogis, berdasarkan oral story dari masing-masing perempuan yang menjadi subjek kajian dalam buku ini. Perspektif feminis yang mengerangkai dari awal hingga akhir menampilkan nuansa aktivisme dan semangat perubahan menjadi bagian dari upaya konstruksi pengetahuan baru yang bersumber dari pengalaman perempuan. "Buku yang Anda baca ini adalah bagian dari agenda akademik yang mencoba memahami berbagai ekspresi dan implikasi ketimpangan sosial dalam masyarakat, kali ini dengan konteks Jember, kawasan yang dikenal baik oleh si penulis. Karya ini layak mendapat tempat dalam khazanah studi sosial mengenai gender, perempuan, dan pengorganisasian perempuan dalam masyarakat." Mohtar Mas'od Guru Besar Emeritus, Universitas Gadjah Mada

ICLSSEE 2021 Jun 25 2020 This book contains the proceedings of the The International Conference on Law, Social Science, Economics, and Education (ICLSSEE 2021). Where held on 6 Maret 2021 in Salatiga, Central Java. This conference was held in collaboration Nusantara Training and Research (NTR) with Borobudur University Jakarta and the Research and Development Agency of the Ministry of Home Affairs. The papers from these conferences collected in a proceedings book entitled: Proceedings of The International Conference on Law, Social Science, Economics, and Education (ICLSSEE 2021). The presentation of such conference covering multi disciplines will contribute a lot of inspiring inputs and new knowledge on current trending about: Law, Social Science, Economics, and Education. Thus, this will contribute to the next young generation researches to produce innovative research findings. Hopefully that the scientific attitude and skills through research will promote the development of knowledge generated through research from various scholars in various regions Finally, we would like to express greatest thankful to all colleagues in the steering committee for cooperation in administering and arranging the conference. Hopefully these seminar and conference will be continued in the coming years with many more insight articles from inspiring research. We would also like to thank the invited speakers for their invaluable contribution and for sharing their vision in their talks. We hope to meet you again for the next conference of ICLSSEE.

ICIIS 2020 Dec 24 2022 We are delighted to introduce the proceedings of the 3rd International Colloquium on Interdisciplinary Islamic Studies. It is annual event hosted and organised by the Graduate School of State Islamic University of Syarif Hidayatullah Jakarta. It was fully 2 days event 20-21 October 2020 by Virtual

(online) mode with 3 keynote speakers: Prof. Abdel Aziz Moenadil from the University of Ibn Thufail, Maroko, Prof Wael Aly Sayyed from the University of Ain Syams, Cairo, Mesir, and Assoc. Prof. Aria Nakissa, Ph.D. from Harvard University. The proceeding consisted of 41 accepted papers from the total of 81 submission papers. The proceeding consisted of 6 main areas of Interdisciplinary Islamic Studies. They are: Islam and medicine, Islam and Science and Technology, Islam and Psychology, Islam and Education, Quran and Hadits, and Islamic Studies with other various aspects. All papers have been scrutinized by a panel of reviewers who provide critical comments and corrections, and thereafter contributed to the improvement of the quality of the papers. Research in Islamic studies and Muslim societies today also increasingly uses interdisciplinary methods and approaches. In order to produce more objective findings, the researchers looked at the need to combine several methods or approaches to an object of study, so that they had additional considerations needed. These additional considerations add a more comprehensive perspective. In this way, in turn they can come up with better findings. Interdisciplinary Islamic studies dispute that Islam is monolithic, militaristic, and primarily Middle Eastern. We strongly believe that ICIIS conference has become a good forum for all researcher, developers, practitioners, scholars, policy makers, especially post graduate students to discuss their understandings of current processes and findings, as well as to look at possibilities for setting-up new trends in SDG and Islamic Interdisciplinary Studies. We also expect that the future ICIIS conference will be as successful and stimulating, as indicated by the contributions presented in this volume.

A Grammar of Nganasan Oct 30 2020 In her descriptive grammar of Nganasan Beáta Wagner-Nagy presents a comprehensive description of modern Nganasan, considering a number of typological aspects. Presented in a traditional structure the grammar serves as future reference of Nganasan within the field of Uralic studies.

De vier Apr 04 2021 Amazon, Apple, Facebook, en Google zijn vier van de invloedrijkste bedrijven ter wereld. Bijna iedereen denkt te weten hoe ze dat geworden zijn. Bijna iedereen heeft het fout. Over De vier is de laatste twintig jaar ongelooflijk veel geschreven. Niemand beschrijft hun macht en fenomenale succes zo inzichtelijk als Scott Galloway. Hij gaat op zoek naar antwoorden op een aantal fundamentele vragen: Hoe is het De vier gelukt ons leven zo te infiltreren dat ze bijna onmogelijk te vermijden (of te boycotten) zijn? Waarom vergeeft de beurs ze zondes die andere bedrijven zouden verwoesten? Is er, in hun race om als eerste het bedrijf te worden dat een biljoen dollar waard is, nog iemand die de strijd met ze kan aangaan? Op zijn eigen unieke manier, die hem ook een van de meest gevierde business-professoren heeft gemaakt, deconstrueert hij de strategieën van De vier die schuilgaan onder het glanzende oppervlak. Hij laat zien hoe zij – met een niet te evenaren snelheid en bereik – onze fundamentele emotionele behoeftes manipuleren die ons al sinds de oertijd drijven. En hij onthult hoe je deze inzichten kunnen toepassen voor de groei van je eigen bedrijf of carrière. Of je nu de concurrentie met ze wilt aangaan, zaken met ze wilt doen of gewoon in de wereld wilt leven die zij domineren, je moet De vier begrijpen.

Worthwhile Mar 15 2022 This book is for anyone who is interested in the intricacies of daily life. Daily life consists of various contexts in which we, as explorers, discover and develop our treasures. Our journeys are not without challenges. We learn to lead and follow through which we find our treasures that we need to strengthen: this makes life worthwhile. On our journeys in daily life we shape our value, values, and learn how to value ourselves and others. This is the process of making ourselves authentic and putting our colours on display. Organisations, economies and countries go through the same processes and make themselves of value too. Our personal accomplishments culminate in a legacy, which is a spin-off of our explorations. Dr. Ir. Carin Vijfhuizen is a rural development sociologist and an international expert in capacity and institutional strengthening, leadership and gender.

Designing Integrated Care Ecosystems May 05 2021 This book brings together research and theory about integrated care ecosystems with modern Socio-Technical Systems Design. It provides a practical framework for collaborative action and the potential for better care in every sense. By combining the aspirations, information, resources, activities, and the skills of public and private organizations, independent care providers, informal care givers, patients and other ecosystem actors, this framework makes possible results that none of the parties concerned can achieve independently It is both a design challenge and a call for innovation in how we think about health care co-creation. Illustrative stories from many countries highlight different aspects of integrated care ecosystems, their design and their functioning in ways that allow us to push the operating frontiers of what we today call our health care system. It explains what it means to design higher levels of coordination and collaboration into fragmented care ecosystems and explores who the participants should and can be in that process. Written for a broad audience including researchers, professionals, and policy makers, this book offers readers new thinking about what outcomes are possible and ways to achieve them.

New York 27 År & Ett Hundrätio Dagar Jul 07 2021 Ett brev anlände från Amerika. Jag vågade knappt öppna det. Jag hade kommit in på fotoskolan jag läst om flera år tidigare! International Center of Photography i New York. Den 6 september, 1993 landade jag på JFK. När taxin körde över bron till Manhattan tittade jag storögt ut genom fönstret. Killarna spelade basket i den varma sensommarkvällen i Harlems utkanter. Stadens berömda skyline söderut. Magiskt, som en film jag redan sett. Tog in på YMCA nära Central Park, ett rum med våningssäng, TV i taket och ett gemensamt badrum. Oglamoröst. Inte alls som i sången av Village People. Första morgonen vaknade jag tidigt av jetlag och gick ut. Köpte en kaffe i en blå pappersmugg och en donut för en dollar. Tittade upp mot skyskraporna i förundran. Jag hade anlänt! 27 år och naiv, utan aning om att New York skulle förbli min hemstad ett halvt liv framåt. 169 dagar efter min ankomst till New York träffade jag den stora kärleken. Den som skulle komma att förändra mitt liv. Katastrofen lurade runt hörnet. 2020 slår det mig att jag levtt halva mitt liv i New York. Jag börjar räkna. Den exakta dagen skulle inte infalla förrän den 25:e december. 27 år och 110 dagar. Som en sen julklapp. Detta är min självbiografi. Dagboksanteckningar, och fotografier av staden via en queer lins. En personlig resa genom hjärtesorg, kärlek och uthållighet. Ett testamente om överlevnad i New York. Konstigt och vackert och smärtsamt och lite kul, som livet. Människor är märkliga och farliga och attraktiva, staden är som ett tivoli där allt utspelas. Niclas Goldberg, poet och skribent, skriver: Otroligt bra. Genast väcks nyfikenheten, en film, en roman, ett djupt hav, en sprudlande, stark, sinnlig, vemodig, rolig, vansinnigt personlig resa som kommer att fånga, ruska om och beröra folk och stanna kvar i sinnet långt efter sista sidan. Jag grät och skrattade och kunde inte sluta läsa.

ICLSSE 2022 Nov 30 2020 The rise of technology and ease of spread of information has facilitated the diaspora of new ideas in the community. The penetration of new ideology and new values challenges the status quo of value and morality in our community. While this can be seen as an opportunity to evolve as a nation, the introduction of radical and separatism brings chaos to the community. This issue is not only experienced in Indonesia but also in the whole world. The needs for a solution and academic forum to discuss this postmodernity in society bring us to the The 4th International Conference on Law, Education and Social Sciences (ICLSSE) 2022. This conference is an international forum to disseminate knowledge and research development among researchers, scholars, professionals, and those interested in research interests in Law and Social Sciences and Social Education. This conference was organized by the Faculty of Law and Social Sciences, Universitas Pendidikan Ganesha. The theme of this fourth conference is "Race, Ethnicity, and Nationalism in Postmodern Society: Opportunities and Challenges".

"Jag Upphäver Gravitationen" Feb 14 2022 "Jag Upphäver Gravitationen" är en berättelse om att leva med autism, asperger och ADHD och hans kämpande för att ta sig in i ett neurotypiskt samhälle där social kapital, kompetens, nätverk och bostads samt släktskap prioriteras före faktiska kunskaper, talanger och meriter. Han berättar hur han envist försöker ta sig in i de finaste sammanhangen, jobben och medierna trots att han saknar de formella nycklarna in, och samtidigt hur denna kamp gör att han förlorar sitt sociala och ekonomiska skyddsnät på grund av stela regelverk.

Tradition in motion Jul 19 2022 In een wereld die constant verandert en versnelt kunnen ondernemingen en organisaties niet achterblijven. Dat is ook zo voor het notariaat. De notaris moet de relatie met zijn cliënten, maar ook met zijn medewerkers, herbekijken zodat een notariële loopbaan aantrekkelijk blijft. Dit werk bevat de bijdragen aan het Notarieel Congres 2019, met focus op HR en algemeen menselijke aspecten (soft skills...) en de implementatie van nieuwe technologieën (blockchain, smart contracts, AI, ...) in het notariaat

2017 Annual Competitiveness Analysis And Impact Of Exchange Rates On Foreign Direct Investment Inflows To Sub-national Economies Of Indonesia May 17 2022 Indonesia's diverse economic landscape and growing importance in the global and regional stages warrant deeper understanding of the economy at sub-national levels. This book by the Asia Competitiveness Institute (ACI) is an update of ACI's annual study of the competitiveness landscape of 34 Indonesian provinces. With 100 indicators covering four environments and 12 sub-environments of competitiveness, the study's unique methodology incorporates comparative strengths and weaknesses, and 'what-if' policy simulations aimed at policy suggestions for each province. This fifth instalment will continue to feature a structure and graphical presentation that offer investors an overview of each province's competitiveness landscape. A novel addition to this update is the chapter co-authored by academics from Indonesian provinces, which details recent developments in 34 provinces of Indonesia. This latest edition also introduces a novel approach of weights assignment in the form of Shapley values as a robustness test to our findings. Additionally, a new appendix has been included which provides a richer visual representation of each province's competitiveness profile. Finally, our study on the impact of exchange rates on foreign direct investment inflows to the provinces of Indonesia is also featured as a chapter in this book. Coupled with practical insights and policy implications, this book is a recommended read for policymakers, researchers, and the general audience interested in Indonesia's economic development.
