A dialogue between a christian an a Hindu about religion Oct 19 2022 The "Dialogue between and Christian and a Hindu about Religion" (Javābasvāla aika krīstīān aura aika hīṃdu ke bīca mo imāna ke upara) was written in about 1751 by Giuseppe Maria da Gargnano with help from his Capuchin friend and colleague, Cassiano da Macerata, and from an unnamed Brahmin teacher. This teacher apparently taught Giuseppe Maria to read Hindustani and some Sanskrit, instructed him in the basics of Hindu religion, and corrected the Hindustani text of the "Dialogue". A copy of the Hindustani text was first presented to the raja of Bettiah in 1751. Subsequently, an undetermined number of hand-made copies were distributed among persons in the Bettiah area. A copy of the Hindustani text in an Indian script related to nagari, dated in 1751, together with an Italian version was sent to Rome and is now in the Vatican Library (Borg. ind. 11). Another copy of the text, dated in 1787, is also found in the same Library (Borg. ind. 16). In the context of the still limited progress of European studies of Indian languages and culture in Giuseppe Maria's historical period, and despite the shortcomings of his own cultural upbringing and intellectual training, the Hindu-Christian dialogu remains a pioneering linguistic and religious experiment.

In Praise of Polytheism Mar 20 2020 What ancient polytheistic religions can teach us about building inclusive and equitable futures At the heart of this book is a simple comparison: monotheistic religions are exclusive, whereas ancient polytheistic religions are inclusive. In this thought-provoking book, Maurizio Bettini, one of today's foremost classicists, uses the expansiveness of ancient polytheism to shine a bright light on a darker corner of our modern times. It can be easy to

see ancient religions as inferior, less free, and remote from shared visions of an inclusive world. But, as Bettini deftly shows, many ancient practices tended to produce results aligned with contemporary progressive values, like pluralism and diversity. In *Praise of Polytheism* does not chastise the modern world or blame monotheism for our woes but rather shows in clear, sharp prose how much we can learn from ancient religions, underscoring the limitations of how we view the world and ourselves today.

Censorship and Heresy in Revolutionary England and Counter-Reformation Rome Mar 12 2022 This book explores the secrets of the extraordinary editorial success of Jacobus Acontius' *Satan's Stratagems*, an important book that intrigued readers and outraged religious authorities across Europe. Despite condemnation by the Catholic Church, the work, first published in Basel in 1565, was a resounding success. For the next century it was republished dozens of times in different historical context, from France to Holland to England. The work sowed the idea that religious persecution and coercion are stratagems made up by the devil to destroy the kingdom of God. Acontius' work prepared the ground for religious toleration amid seemingly unending religious conflicts. In Revolutionary England it was propagated by latitudinarians and independents, but also harshly censored by Presbyterians as a dangerous Socinian book. Giorgio Caravale casts new light on the reasons why both Catholics and Protestants welcomed this work as one of the most threatening attacks to their religious power. This book is an invaluable resource for anyone interested in the history of toleration, in the Reformation and Counter-Reformation across Europe.
