Whether you've started several businesses, have an idea but aren't sure where to start, or you're sick and tired of doing the same thing, this book is the launchpad you need to get fired up and Go Live! Unlike other animals, which are born with strong instincts, we humans must learn how to live socially—and we learn from the people around us. As a result, we're closely linked to the community we're raised in. Our daily lives and identities are affected by the common experiences shared with the people in our community. We learn the community's values, history, and rules. When we become part of a community, it becomes part of us. Citizenship is the state of being an active, engaged, and productive member of a community. As citizens, we get certain rights, but also certain responsibilities. To be good citizens, we must live up to these responsibilities. That's because we share our future with the other individuals in our community. Our actions affect them, and theirs affect us. A community can only grow and flourish through time if good citizens do their best to improve it. We all have a sense of right and wrong, but we don't always follow our better judgments—good citizens must also live ethically, or morally. Whenever we decide not to live ethically, we risk hurting the people around us and ourselves. Being a good citizen has immediate rewards. Ethical living and good citizenship can improve your academic and social success, your

important body parts. Hair dye causes cancer Although hair dye made before 1980 contained chemicals that cause cancer in animals, today's dyes are much safer. However, modern hair dyes still contain thousands of chemicals, so experts remain unsure whether they cause cancer or not. That being said, it's better not to dye your hair too often. Eating black sesame seeds can turn gray hair black Many people believe black sesame seeds slow down the signs of aging, including gray hairs. That's because they're filled with important vitamins and nutrients. Therefore, while no scientific studies have proven that black sesame seeds help keep your hair looking young, they are still very healthy. As for the best way to avoid gray hairs, stay away from stress, smoking, and poor diet, as these have all been shown to cause gray hair.

There's more to your head than the hair on it. Let's take a look at some other beliefs that you may have heard before. Eating very cold foods will give you a headache Also called "brain freeze," this can happen when you quickly eat something very cold, like ice cream. This is because when the cold food touches the top of your mouth or throat, it increases blood flow to certain areas of your head, which causes a temporary headache. So to enjoy headache-free ice cream, stick to licking it! Cutting a baby's eyelashes can make them grow longer Long, thick eyelashes on a baby are so cute that some parents may risk hurting their children by cutting their baby's eyelashes to help them grow longer. However, this claim has no scientific basis. The factors that influence eyelash growth are nutrition and genetics. But what can mothers do to help their babies grow long, beautiful lashes? It's simple—just make sure the baby is receiving proper nutrition. Now you know the truth behind these common head health claims. Don't let this knowledge go to your head!

Each chapter concludes with The Magic Question™, the one crucial question most people never think to ask until it's too late. "I know what I should do...I just don't know why I don't do it." This phrase captures a universal human experience--we can't always get ourselves to do what we know is best for us. In Well Designed Life, you will learn that the solution to this stumbling block resides in coupling two disciplines: brain science and design thinking. Brain and behavior sciences have exploded in recent years. This catalyzes new insights into why we do what we do--and how we can change. Meanwhile, major advances in consumer technology, service industries, and public health are rapidly changing how we live. This boom of innovation has been fueled by a creative approach to solving problems called design thinking. We are living in the age of design--and designers are the new rock stars. Dr. Kyra Bobinet brings together over 25 years of successfully designing interventions, products, and experiences that change lives--to empower you as the designer of your life. Dr. Bobinet has gathered ten key concepts from psychology, behavior and neuroscience and applies each of them to changing your health, relationships, and well-being. Bobinet insists that the success or failure of changing our lives hinges on both understanding what's going on inside our head and applying the flexible mindset of a designer. She writes, "Adopting the mindset of a designer puts you in the driver's seat of making life work. Grounding yourself in the science of how we see the world and how our brain responds helps you design behaviors that work--in real life. This is about you acting on what you always wished you would do. It's about stepping out of any areas of helplessness and into creative self-direction. You have a choice: design your life or let it design you!" Infused with relatable narratives that are at once witty and gripping, professional and personal, Bobinet takes you on a journey through the origins of your self-image, motivations, decisions, and unconscious behaviors--leaving you with the keys to free yourself from your conditioning and lead a well-designed life. 4 Live 9 10 After Twenty Years 14 Introducing Zara Larsson 18 19 At the Library 22 Spirit Week: Raising Spirits and Money for Those in Need 28 Taking the Bean Out of Coffee Atomo 30 Experience Fall in Japan at the Fuji Five Lakes 34 Fish-and-Chips: Britain's National Dish 38 Hugging for Health and Happiness 42 Shopping at a General Store 45 2 46 Bitcoin: The High Cost of Creating Digital Money 50 51 Translation Practice 54 A Brief History of Quarantine 58 General English Proficiency Test 60 Studying English with Songs: Look What You,ve Done 61 62 Movie Trailer English 63 GEPT Answer Key 65 Chinese Translation
