The City of the Sun Jul 04 2021 City of the Sun, written in 1602, is Tommaso Campanella's contribution to the body of literature concerned with utopia, the philosophical search for the perfect society. Campanella's utopia was based on a form of communism in which all possessions, including women and children, were shared by men. The great city was ruled by a spiritual leader named Metaphysic, whom Power, Wisdom, and Love served, overseeing all aspects of the society. Wisdom ensures that the sciences are properly taught, while Love ensures that men and women breed the most perfect children. Those with an interest in philosophy and sociology will find this book an intriguing take on the structure of an ideal society. Italian philosopher and theologian TOMMASO CAMPANELLA (1568-1639) became a monk at the age of fifteen. He was imprisoned for twenty-seven years for conspiring against the Spanish crown, and it was during this time that he wrote his most important works, including *Peppa Atheismus triumphatus* (1605) and *Metaphysica* (1609).

Play the Najdorf Sicilian Aug 25 2020 The Najdorf Sicilian has a unique place amongst chess openings: for several decades it has been regarded by the top grandmasters as the best way for Black to play soundly for a win against 1 e4. It was a particular favourite of World Champions Bobby Fischer and Garry Kasparov, and plays a vital role in the repertoires of current top players such as Viswanathan Anand and Veselin Topalov. Black's stance is totally uncompromising. He accepts no organic weaknesses and stays flexible, ready to counterpunch in any part of the board. White has no safe or easy option. On the other hand, he does have a vast array of extremely dangerous attacking options, such as the old 6 Bg5 main line, which can lead to the Poisoned Pawn, a variation that has undergone much development in the 21st century. The current main line is 6 Be3, intending the English Attack. But given the Najdorf's importance, White has tried almost everything imaginable in the search for an advantage, with considerable bodies of theory evolving for lines that contain merely a drop of poison. In the ever-changing Najdorf landscape, it is easy to lose sight of the strategic backbone that underpins the Najdorf. In this book, James Rizzitano, a battle-hardened Sicilian warrior, distills the most important ideas and themes from current practice to provide an ideal guide for those looking to succeed as White or Black in the Najdorf in the modern scientific era.

Magicians Impossible Sep 25 2020 Harry Potter meets James Bond in this story of a twenty-something slacker who discovers that he is descended from a line of magical spies and is thrust into the middle of a secret and epic battle.

"Magicians Impossible is a mind-bending page-turner! A brilliant and unique mash-up of spells, myth and mayhem, once it got its claws in me I couldn't put it down. Like a veteran stage magician, Brad Abraham has created a hip thriller that turns convention on its ear with misdirection and mayhem. A must read for enthusiasts of edgy and extreme fiction." —Don Coscarelli, director of *John Dies At The End* Twenty-something bartender Jason Bishop's world is shattered when his estranged father commits suicide, but the greater shock comes when he learns his father was a secret agent in the employ of the Invisible Hand; an ancient society of spies wielding magic in a centuries-spanning war. Now the Golden Dawn—the shadowy cabal of witches and warlocks responsible for Daniel Bishop's murder, and the death of Jason's mother years before—have Jason in their sights. His survival will depend on mastering his own dormant magic abilities; provided he makes it through the training. From New York, to Paris, to worlds between worlds, Jason's journey through the realm of magic will be fraught with peril. But with enemies and allies on both sides of this war, whom can he trust? The Invisible Hand, who've been more of a family than his own family ever was? The Golden Dawn, who may know the secrets behind his mysterious lineage? For Jason Bishop, only one thing is for certain; the magic he has slowly been mastering is telling him not to trust anybody.

Terre rare Oct 19 2022 Nel giro di ventiquattro ore un uomo perde il controllo della propria vita: fa un grave errore sul lavoro, gli viene sequestrata la patente, trova l'ufficio sigillato dalla Finanza, scopre che il suo socio è fuggito lasciandolo nei guai, rompe definitivamente con la sua compagna – e nel frattempo sua figlia è scappata da casa. Credendosi braccato, fugge a sua volta, alla cieca, ma lo sfacelo cui si è di colpo ridotta la sua vita, man mano che egli lo affronta, si rivela sempre più chiaramente un approdo, fatale e familiare – secondo una mappa interiore che era stata tenacemente rimossa. Quest'uomo è Pietro Paladini, l'eroe immobile di *Caos* calmo, che molti anni dopo ritroviamo

nella situazione opposta, roso dall'ansia e senza più un posto dove stare, costretto a vagare alla ricerca di quella pace improvvisamente perduta, o meglio – e questa sarà la sua scoperta – mai veramente avuta. La rimozione, la fuga, la famiglia che si disgrega, il confuso declino dell'Occidente, lo sforzo tragicomico di restare onesti in un tempo che spinge continuamente verso l'illegalità – e poi, di colpo, la verità. Alla fine di Caos calmo Paladini rispondeva a un celebre verso di Dylan Thomas affermando che “la palla che lanciamo giocando nel parco è tornata giù da un pezzo. Dobbiamo smettere di aspettarla”. Si sbagliava, la palla era ancora per aria. Torna giù ora, in Terre rare.

One Thousand Years of Manga Dec 29 2020 In recent years, Manga has seen phenomenal success, not only in Japan, where it dominates the publishing industry, but also in the West, where it is steadily growing in popularity and influence. As swift and sudden as the popularity of this graphic art form may seem, Manga has, in fact, deep roots in Japanese culture, drawing on centuries-old artistic traditions. As early as the twelfth century, Emakimono scrolls existed, a narrative form in which stories of all kinds—romantic, fantastic, even comic—were told through the combined use of text and illustration. Japanese art continued to change as profound political, social, and economic transformations remade the country in the centuries to follow. Today there is little doubt as to the meaning of the term Manga—nor to the astonishing popularity of the form—but few in the West understand the long artistic history that gave birth to this phenomenon and the social factors that continue to shape it today. One Thousand Years of Manga is both an informative account of the genesis of the form and a visual delight. Through its captivating illustrations and enlightening text, the book situates Manga in its proper context, appreciating it for what it truly is: an integral part of Japanese art and culture that is as rich and revealing as it is popular.
