Colonel Nick Fury, veteran CIA operative, has been at war for a lifetime. Now he sits alone in a dank hotel room, coughing his confession into a tape recorder, laying out a legacy of carnage stretching back to World War II. Because when that war ended, another one began - and Fury sought it out, regardless of the cost to those who loved him, including loyal George Hatherly, Congressman Pug McCuskey, and the beautiful Shirley DeFabio. From Indochina to Cuba, Vietnam to Nicaragua, Fury battled across the decades, encountering young Marine sniper Frank Castle and the nightmarish Barracuda -his constant lust for combat blinding him to all other concerns. But the end is coming. The debt is long past due. And Nick Fury's true legacy will soon be written in blood for all to see. COLLECTING: FURY MAX 1-13 "In their passionate intensity these drawings are as emotionally poignant as the very best war work that Paul Nash or Nevinson ever produced, while technically the broad lines and heavy blacks of Mr. Szüts have a sledgehammer mastery which is more akin to the work of Forain and Steinlen."?The Sunday Times (London). The pen, ink, and wash images of this graphic novel speak louder than words in relating a soldier's experiences during World War I. My War, a dramatic narrative by Hungarian veteran Szegedi Szüts, portrays the tragedy of wartime life on the battlefield as well as on the home front. With pathos and grim humor, more than 200 images trace a young recruit's progress from initial enthusiasm to ultimate disillusionment. Includes new Foreword by Peter Kuper. 'MEIN KAMPF' is the autobiography of Adolf Hitler gives detailed insight into the mission and vision of Adolf Hitler that shook the world. This book is the merger of two volumes. The first volume of 'MEIN KAMPF' was written while the author was imprisoned in a Bavarian fortress. The book deals with events which brought the author into this blight. It was the hour of Germany's deepest humiliation, when Napoleon has dismembered the old German Empire and French soldiers occupied almost the whole of Germany. The books narrates how Hitler was arrested with several of his comrades and imprisoned in the fortress of Landsberg on the river Lech. During this period only the author wrote the first volume of MEIN KAMPF. The Second volume of MEIN KAMPF was written after release of Hitler from prison and it was published after the French had left the Ruhr, the tramp of the invading armies still echoed in German ears and the terrible ravages had plunged the country into a state of social and economic Chaos. The beauty of

the book is, MEIN KAMPF is an historical document which bears the imprint of its own time. Moreover, Hitler has declared that his acts and 'public statements' constitute a partial revision of his book and are to be taken as such. Also, the author has translated Hitler's ideal, the Volkischer Staat, as the People's State. The author has tried his best making German Vocabulary easy to understand. You will never be satisfied until go through the whole book. A must read book, which is one of the most widely circulated and read books worldwide. Thirty years after the Falklands War 'Secret Millionaire' Tony Banks is still haunted by his experiences in the South Atlantic. As a member of the crack Parachute Regiment his unit was the first to land on the Falklands and he fought in the bloody first and last battles of the war before liberating Port Stanley. In this memoir Tony vividly recalls the fighting in the Falklands. He relives the bombing raids in San Carlos bay, the Battle of Goose Green, the Argentinian attack on the Sir Galahad and the Battle of Wireless Ridge. But he also tells of his own battles with Combat Stress and of how three decades on the war is still claiming victims. He tells the stories of British and Argentine veterans and travels to Argentina to return a war trophy - a trumpet he had taken from a prisoner - to its rightful owner. The return of the trumpet brings closure to both men. And finally Tony returns to the Falklands to lay the ghosts that have haunted him to rest. Rall is back recounting his junior-high years at the hands of a merciless bully who just wouldn't let up. Ted, now a strapping fella over 6 feet happily lost in the Big Apple, was a wimpy egghead trapped in the middle of Nowheresville, Heartland USA back then, and hated it with a passion. This no-holds-barred recollection begs the question: was his attitude so snotty that he deserved the abuse? On December 7, 1941, when the Japanese were bombing Pearl Harbor, Tracy Sugarman was a young man studying to be an illustrator--and falling in love with a tawny-haired girl named June. But for Tracy, as for all Americans, everything changed that December dawn. Two years later, now married to June, Tracy was on a troopship bound for England, part of the massive Allied buildup for the liberation of Europe. On D-Day he landed on Utah Beach, one young ensign in the greatest military invasion in history. But Tracy Sugarman was not only a sailor. He was also an artist, who chronicled every aspect of his war in watercolors and sketches and in more than four hundred letters to his wife, who carefully saved everything her new husband sent her. Fifty years later, June Sugarman astonished her husband by showing him his long-forgotten pictures and words: lush watercolors and pen-and-ink drawings set down with breathtaking immediacy in the midst of war, and letters in which the young man poured out his feelings--about the terror and tedium of battle, his own ideals and hopes . . . and, always, his love for his wife. Here, selected from this treasure trove, are the drawings and watercolors that best portray the war Tracy Sugarman experienced. Interspersed throughout are excerpts of his loving and poignant letters home and, as the capstone of this extraordinary book, the single surviving letter from June to her husband. My War is a luminous, powerful account of a world at war--and a beautifully touching love story. Kitty Killin is not only a good storyteller, but also the World's Greatest Expert when it comes to mothers having new and unwanted boyfriends. Particularly when there's a danger they might turn into new and unwanted stepfathers... 'Undoubtedly the most powerful and immediate book to

emerge from the Balkan horror of ethnic civil war' Antony Beevor, Daily Telegraph In 1993, Anthony Loyd hitchhiked to the Balkans hoping to become a journalist. Leaving behind him the legends of a distinguished military family, he wanted to see 'a real war' for himself. In Bosnia he found one. The cruelty and chaos of the conflict both appalled and embraced him; the adrenalin lure of the action perhaps the loudest siren call of all. In the midst of the daily life-and-death struggle among Bosnia's Serbs, Croats and Muslims, Loyd was inspired by the extraordinary human fortitude he discovered. But returning home he found the void of peacetime too painful to bear, and so began a longstanding personal battle with drug abuse. This harrowing account shows humanity at its worst and best. It is a breathtaking feat of reportage; an uncompromising look at the terrifyingly seductive power of war. 'As good as reporting gets. I have nowhere read a more vivid account of frontline fear and survival. Forget the strategic overview. All war is local' Martin Bell, The Times Three generations ago, author Sophie Stallman was a young girl living a normal and happy existence with her traditional and privileged Polish family. But when the Germans invaded Poland on September 1, 1939, Sophie's life as she knew it would cease to exist. Under Nazi-occupied Poland, Sophie and her family were forced to endure a daily life of deprivation, fear, and struggle, but despite the abysmal war conditions to which she was subjected, Sophie was determined to pursue her own life in spite of the war. Pressing forward with her academic education and following her love of music she excelled developing her modern dance talents and mezzo-soprano voice. Sophie also made the courageous decision to join the Polish resistance organization -- a move that would put her life in constant jeopardy, especially during the 1944 Warsaw uprising. An underemployed, skateboarding party animal, Colby Buzzell traded a dead-end future for the army--and ended up as a machine gunner in Iraq. To make sense of the absurd and frightening events surrounding him, he started writing a blog about the war--and how it differed from the government's official version. But as his blog's popularity grew, Buzzell became the embedded reporter the Army couldn't control--despite its often hilarious efforts to do so. The result is an extraordinary narrative, rich with unforgettable scenes: the Iraqi woman crying uncontrollably during a raid on her home; the soldier too afraid to fight; the troops chain-smoking in a guard tower and counting tracer rounds; the first, fierce firefight against the "men in black." Drawing comparisons to everything from Charles Bukowski to Catch-22, My War depicts a generation caught in a complicated and dangerous world--and marks the debut of a raw, remarkable new voice. Our collective memories of World War II and Vietnam have been shaped as much by memoirs, novels, and films as they have been by history books. In Welcome to the Suck, Stacey Peebles examines the growing body of contemporary war stories in prose, poetry, and film that speak to the American soldier's experience in the Persian Gulf War and the Iraq War. Stories about war always encompass ideas about initiation, masculinity, cross-cultural encounters, and trauma. Peebles shows us how these timeless themes find new expression among a generation of soldiers who have grown up in a time when it has been more acceptable than ever before to challenge cultural and societal norms, and who now have unprecedented and immediate access to the world away from the battlefield through new media and technology. Two Gulf

War memoirs by Anthony Swofford (Jarhead) and Joel Turnipseed (Baghdad Express) provide a portrait of soldiers living and fighting on the cusp of the major political and technological changes that would begin in earnest just a few years later. The Iraq War, a much longer conflict, has given rise to more and various representations. Peebles covers a blog by Colby Buzzell ("My War"), memoirs by Nathaniel Fick (One Bullet Away) and Kayla Williams (Love My Rifle More Than You); a collection of stories by John Crawford (The Last True Story I'll Ever Tell); poetry by Brian Turner (Here, Bullet); the documentary Alive Day Memories; and the feature films In the Valley of Elah and the winner of the 2010 Oscar for Best Picture, The Hurt Locker, both written by the war correspondent Mark Boal. Books and other media emerging from the conflicts in the Gulf have yet to receive the kind of serious attention that Vietnam War texts received during the 1980s and 1990s. With its thoughtful and timely analysis, Welcome to the Suck will provoke much discussion among those who wish to understand today's war literature and films and their place in the tradition of war representation more generally. In the Viet Nam war, the battle around the base camp of Khe Sanh was probably the most publicized story of the war. The story of Khe Sanh started a year before the Siege that lasted for 77 days. It started because the area in the far northwest part of South Vietnam got the attention of the NVA. They couldnt allow a base that was so close to the border of Laos, so close to the border of North Viet Nam, to go about its business as usual without a challenge by the army of the North. Giap was world famous for defeating the French army in 1954 in an area that looked a lot like the area around Khe Sanh. He used and developed tactics in the French Indochina war that continued in use against the Americans and South Vietnamese Army. He first tried to put his army in the high ground surrounding the air strip at Khe Sanh and was defeated in the Hill Fights of April and May, 1967, some of the bloodiest fighting in the war. For several months after that bitter battle, he left the area alone, but in January of 1968, he decided to attack again. The first thing to be made clear is that Ludendorff was NOT a von as he is so often shown, even by reputable historians. Given his enormous prestige and high position in the imperial German Army it is hard to believe he was not von . In his introduction, Ludendorff remarks that he had no time to keep any record of events and the narrative that follows is based chiefly on his memory. He is going to give an account of the "magnificent deeds of the German Army, deeds from which Germany can take heart and "with which my name will for all time be associated . Born on 9 April 1865 in Kruschevnia, Posen district, Ludendorff passed through the Military Academy at Lichterfelde and in 1885 was commissioned into the 57th Infantry Regiment, a Westphalien regiment. After several regimental postings and the Kriegesakademie Ludendorff joined the General Staff being promoted Major in 1900. From March 1904 to January 1913 he was, with only one short interval, in the Operations Department of which he became Chief. In 1913 he was posted to Dusseldorf as CO 39th Fusiliers and in 1914 he moved again, on promotion, to Strasburg as commander 85th Brigade; on the outbreak of war he became Deputy Chief of Staff of General von Bulow s Second Army. Ludendorff first came to notice when he took charge of operations that led to the capture of the fortress of Liege on 7th August 1914, for which he was awarded the Pour le Merite, and which he describes in detail. Two weeks later he was sent to the Eastern

Front as Chief of Staff of 8th Army under the newly appointed commander, von Hindenburg. Thus began the partnership that was to last till Ludendorff's resignation over four years later on 26th October 1918. Within a week they had won a crushing victory over the Russians at Tannenberg and became instant heroes. When Hindenburg was appointed Chief of the General Staff in August 1916 and moved to the Western Front, Ludendorff went with him as his deputy in the newly created post of First Quartermaster-General. As the narrative unfolds it is clear how Ludendorff became the driving force though always acknowledging Hindenburg's senior position, and, of course, always paying lip service to the All-Highest. Between they gained control not just of the armed forces but also of Germany's war effort and of the political scene, for example insisting on unrestricted submarine warfare despite the objections of the chancellor, Bethman Hollweg, who resigned. They had become a military dictatorship. Following the failure of the German 1918 offensive Ludendorff suffered a nervous breakdown and was forced to resign, just before the end of the war.

Xuan Phuong - chemist, physician, journalist, filmmaker, touring service operator, and art gallery owner tells her story. From leaving home at the age of 16 and joining the Vietminh, to becoming a barefoot revolutionary in the jungle, a witness to the fall of Saigon, and a wife and mother to three sons, Yuan Phuong has lived a full life. The drawings, in red, blue, and black pencil, include portraits of principal participants in the war, battle scenes, and views of Nez Perce camp life. 60 color illustrations.

Music in the everyday lives of U.S. troops and combat veterans In the wars in Afghanistan and Iraq, recent technological developments in music listening enabled troops to carry with them vast amounts of music and easily acquire new music, for themselves and to share with their fellow troops as well as friends and loved ones far away. This ethnographic study examines U.S. troops' musical-listening habits during and after war, and the accompanying fear, domination, violence, isolation, pain, and loss that troops experienced. My Music, My War is a

moving ethnographic account of what war was like for those most intimately involved. It shows how individuals survive in the messy webs of conflicting thoughts and emotions that are intricately part of the moment-to-moment and day-to-day phenomenon of war, and the pervasive memories in its aftermath. It gives fresh insight into musical listening as it relates to social dynamics, gender, community formation, memory, trauma, and politics. Part scrapbook, part memoir, this wonderfully colourful and eloquent diary brims with vivid observations, providing a rare snapshot of what life was like on the Home Front during the First World War. Amateur artist, animal lover and keen writer of letters to the papers, Mrs Bilbrough witnessed the men leaving for war (her husband, Kenneth, a banker in the City, was fortunately too old to be called up); the horses at Waterloo waiting to be transported to France; bombings and airraids; the introduction of the Daylight Saving Bill and food price increases (her consternation as the price of a tin of tongue rose from 2/- to 4/6 is clear!). She also writes at her outrage at the shooting of British nurse Edith Cavell; her sadness when Lord Kitchener is drowned at sea; her alarm as Zeppelins flew over Kent and her anger at the wide-ranging German atrocities. Her relief as war ended is palpable ('PEACE! The armistice is signed, "the day" has come at last! And it is ours!'). Interspersed with her daily jottings are cuttings and cartoons, her own watercolours and drawings and the colourful flags that were sold to raise money for the troops. Charming yet moving, this diary gives us a taste of what it was really like to live through the Great War, seen from the perspective of an acute social observer. Follow along as the author relates his experiences from the time he enlists in the Army Air Force in 1942, thru training as an Aviation Cadet and finally as the pilot-in-command of a B-17 Flying Fortress as the 8th Air Force mounts its attack against Hitler's Germany. Enjoy moments of humor, live incidents of aviation suspense and feel the sorrow of tragic times. Trapped in the past with the Feeders advancing on Earth, alien exterminator Heath Huston must stop the automaton regime responsible for robbing him of all he loves before the alien infestation arrives on his home planet. This memoir tells the story of a Marine rifle platoon commander's time in the mountainous jungle of the northernmost province of the then Republic of Vietnam. While tasked with fighting the enemy, G.M. Davis made some great friends ... but saw too much death. The author tracks his tour of duty in the jungle, leading Marines not against the Viet Cong but against the North Vietnamese Army, a well-trained and well-supplied professional army dedicated to unifying the two Vietnams. The heat, the worry, the responsibility and the daily grind took a toll amid firefights, battles, victory, and loss. Contact with the enemy was frequent, and the chaos of even a small fight was daunting. Davis also examines the political reality of the time, arguing that the war was lost before it began, but that the nation kept fighting and losing soldiers so politicians could look strong and keep their jobs. Looking back at the war, he concludes it was a waste of lives and treasure. Wars are started by a person or persons and are usually a quest for power for a person or a group of people and they don't really care how many people are killed nor how many families are losing a father, mother or brothers or whole families and their relatives. Sometimes, it is necessary to start a war by a peaceful nation against countries that are harming and have the publically displayed their

intentions to extend their borders by taking land from established country's land and people. This I would consider declaring a war to be the only necessary solution to the problem----but still a war with people getting maimed and killed. In World War One---Germany was the problem----once again lust for power. I wasn't even thought of at that period of time----in fact, I hadn't even arrived on the scene at that point of time. But, think about it for a moment-----there's not one inch of land that has increased in size in those thousands of years of civilization and wars. I was a training in Camp Blanding in Florida---we could look in any direction and there was a sign posted in large letters-----"Kill or Be Killed"----"Kill or Be Killed". We were just 18 or 19 year old kids-----think about it-----"Kill or Be Killed"-what an education-but necessary to imprint it inside our young brains. It gave us young kids a reason to become killers-----hesitate for a second and you're dead. Back then in training, we used to repeat over and over was that wars were necessary to "Decrease The Surplus Population"-----It is most certainly a true statement. The author, assigned to civilian relief in the aftermath of the Israeli intervention in Lebanon, describes the suffering of the Lebanese and the attitudes of Israeli soldiers Vietnam veteran tells his experiences through his art. Each piece is accompanied by a short narrative describing events that inspired it. A wonderful and enduring tribute to American troops in the Second World War, Here Is Your War is Ernie Pyle's story of the soldiers' first campaign against the enemy in North Africa. With unequalled humanity and insight, Pyle tells how people from a cross-section of America's ranches, inner cities, small mountain farms, and college towns learned to fight a war. The Allied campaign and ultimate victory in North Africa was built on blood, brave deeds, sacrifice and needless loss, exotic vistas, endurance, homesickness, and an unmistakable American sense of humor. It's all here: the suspenseful landing at Oran; the risks taken daily by fighter and bomber pilots; grim, unrelenting combat in the desert and mountains of Tunisia; a ferocious tank battle that ended in defeat for the inexperienced Americans; and the final victory at Tunis. Pyle's keen observations relate the full story of ordinary G.I.s caught up in extraordinary times. The author presents short newspaper articles concerning the war in Vietnam along with writings of his memories of sixteen months of an extended Vietnam tour with the Marines. A remarkable account of the collapse of the Old South and the final years of a young boy's privileged but afflicted life. LeRoy Wiley Gresham was born in 1847 to an affluent slave-holding family in Macon, Georgia. After a horrific leg injury left him an invalid, the educated, inquisitive, perceptive, and exceptionally witty twelve-year-old began keeping a diary in 1860--just as secession and the Civil War began tearing the country and his world apart. He continued to write even as his health deteriorated until both the war and his life ended in 1865. His unique manuscript of the demise of the Old South is published here for the first

time in *The War Outside My Window*. LeRoy read books, devoured newspapers and magazines, listened to gossip, and discussed and debated important social and military issues with his parents and others. He wrote daily for five years, putting pen to paper with a vim and tongue-in-cheek vigor that impresses even now, more than 150 years later. His practical, philosophical, and occasionally Twain-like hilarious observations cover politics and the secession movement, the long and increasingly destructive Civil War, family pets, a wide variety of hobbies and interests, and what life was like at the center of a socially prominent wealthy family in the important Confederate manufacturing center of Macon. The young scribe often voiced concern about the family's pair of plantations outside town, and recorded his interactions and relationships with servants as he pondered the fate of human bondage and his family's declining fortunes. Unbeknownst to LeRoy, he was chronicling his own slow and painful descent toward death in tandem with the demise of the Southern Confederacy. He recorded—often in horrific detail—an increasingly painful and debilitating disease that robbed him of his childhood. The teenager's declining health is a consistent thread coursing through his fascinating journals. "I feel more discouraged [and] less hopeful about getting well than I ever did before," he wrote on March 17, 1863. "I am weaker and more helpless than I ever was." Morphine and a score of other "remedies" did little to ease his suffering. Abscesses developed; nagging coughs and pain consumed him. Alternating between bouts of euphoria and despondency, he often wrote, "Saw off my leg." *The War Outside My Window*, edited and annotated by Janet Croon with helpful footnotes and a detailed family biographical chart, captures the spirit and the character of a young privileged white teenager witnessing the demise of his world even as his own body slowly failed him. Just as Anne Frank has come down to us as the adolescent voice of World War II, LeRoy Gresham will now be remembered as the young voice of the Civil War South. Winner, 2018, The Douglas Southall Freeman Award

The instant classic that changed the way we saw World War II and an entire generation of Americans, from the beloved journalist whose own iconic career has lasted more than fifty years. In this magnificent testament to a nation and her people, Tom Brokaw brings to life the extraordinary stories of a generation that gave new meaning to courage, sacrifice, and honor. From military heroes to community leaders to ordinary citizens, he profiles men and women who served their country with valor, then came home and transformed it: Senator Daniel Inouye, decorated at the front, fighting prejudice at home; Martha Settle Putney, one of the first black women to serve in the newly formed WACs; Charles Van Gorder, a doctor who set up a MASH-like medical facility in the middle of battle, then opened a small clinic in his hometown; Navy pilot and future president George H. W. Bush, assigned to read the mail of the enlisted men under him, who says that in doing so he "learned about life"; and many other laudable Americans. To this generation that gave so much and asked so little, Brokaw offers eloquent tribute in true stories of everyday heroes in extraordinary times. Praise for *The Greatest Generation* "Moving . . . a tribute to the members of the World War II generation to whom we Americans and the world owe so much."—*The New York Times Book Review* "Full of wonderful, wrenching tales of a generation of heroes. Tom Brokaw reminds us what we are capable of as a people. An inspiring read for those who wish their spirits lifted."—Colin L.

Powell "Offers welcome inspiration . . . It is impossible to read even a few of these accounts and not be touched by the book's overarching message: We who followed this generation have lived in the midst of greatness."—The Washington Times "Entirely compelling."—The Wall Street Journal

*My War* is a blunt, funny, idiosyncratic account of Andy Rooney's World War II. As a young, naïve correspondent for *The Stars and Stripes*, Rooney flew bomber missions, arrived in France during the D-Day invasion, crossed the Rhine with the Allied forces, traveled to Paris for the Liberation, and was one of the first reporters into Buchenwald. Like so many of his generation, Rooney's life was changed forever by the war. He saw life at the extremes of human experience, and wrote about what he observed, making it real to millions of men and women. *My War* is the story of an inexperienced kid learning the craft of journalism. It is by turns moving, suspenseful, and reflective. And Rooney's unmistakable voice shines through on every page. In the wars in Afghanistan and Iraq, recent technological developments in music listening enabled troops to carry with them vast amounts of music and easily acquire new music, for themselves and to share with their fellow troops as well as friends and loved ones far away. This ethnographic study examines U.S. troops' musical-listening habits during and after war, and the accompanying fear, domination, violence, isolation, pain, and loss that troops experienced. *My Music, My War* is a moving ethnographic account of what war was like for those most intimately involved. An investigation into the nature of violence, terror, and trauma through conversations with a notorious war criminal by Jessica Stern, one of the world's foremost experts on terrorism. Between October 2014 and November 2016, global terrorism expert Jessica Stern held a series of conversations in a prison cell in The Hague with Radovan Karadzic, a Bosnian Serb former politician who had been indicted for genocide and other war crimes during the Bosnian War and who became an inspiration for white nationalists. Though Stern was used to interviewing terrorists in the field in an effort to understand their hidden motives, the conversations she had with Karadzic would profoundly alter her understanding of the mechanics of fear, the motivations of violence, and the psychology of those who perpetrate mass atrocities at a state level and who—like the terrorists she had previously studied—target noncombatants, in violation of ethical norms and international law. How do leaders persuade ordinary people to kill their neighbors? What is the "ecosystem" that creates and nurtures genocidal leaders? Could anything about their personal histories, personalities, or exposure to historical trauma shed light on the formation of a war criminal's identity in opposition to a targeted Other? In *My War Criminal*, Jessica Stern brings to bear her incisive analysis and her own deeply considered reactions to her interactions with Karadzic, a brilliant and often shockingly charming psychiatrist and poet who spent twelve years in hiding, disguising himself as an energy healer, while also offering a deeply insightful and sometimes chilling account of the complex and even seductive powers of a magnetic leader—and what can happen when you spend

many, many hours with that person. \*Newbery Honor book \*Winner of the Schneider Family Book Award This #1 New York Times bestseller is an exceptionally moving story of triumph against all odds set during World War II, from the acclaimed author of Fighting Words, and for fans of Fish in a Tree and Sarah, Plain and Tall. The New York Times bestselling author of Paris 1919 offers a provocative view of war as an essential component of humanity. NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY THE NEW YORK TIMES BOOK REVIEW "Margaret MacMillan has produced another seminal work. . . . She is right that we must, more than ever, think about war. And she has shown us how in this brilliant, elegantly written book."—H.R. McMaster, author of Dereliction of Duty and Battlegrounds: The Fight to Defend the Free World The instinct to fight may be innate in human nature, but war—organized violence—comes with organized society. War has shaped humanity's history, its social and political institutions, its values and ideas. Our very language, our public spaces, our private memories, and some of our greatest cultural treasures reflect the glory and the misery of war. War is an uncomfortable and challenging subject not least because it brings out both the vilest and the noblest aspects of humanity. Margaret MacMillan looks at the ways in which war has influenced human society and how, in turn, changes in political organization, technology, or ideologies have affected how and why we fight. War: How Conflict Shaped Us explores such much-debated and controversial questions as: When did war first start? Does human nature doom us to fight one another? Why has war been described as the most organized of all human activities? Why are warriors almost always men? Is war ever within our control? Drawing on lessons from wars throughout the past, from classical history to the present day, MacMillan reveals the many faces of war—the way it has determined our past, our future, our views of the world, and our very conception of ourselves. Born in Kandahar in 1978, Sultan fled to the United States at age five with her family. Raised in Brooklyn and Flushing, Queens, Sultan saw her life change when she was married by arrangement at the young age of seventeen to a virtual stranger

fourteen years her senior -- a marriage she struggled to maintain and then hastily fought, eventually (after three years) being granted a divorce. This very divorce would become one of the first in her close-knit Afgan community, where the subject is considered rare and taboo. Sultan went on to graduate from college summa cum laude with a degree in economics, and in July 2001, she returned to Kandahar, to explore her family roots and find herself. There she met her relatives and surveyed the conservative provincial town where she was born. on return visit to afganistan, she discovered the tragic death of her relatives at the hands of American troops and began to seek answers. My War at Home is her memoir of self-discovery, family tradition, and life as a Muslim and feminist with political ideals. It speaks to the younger generation of Muslims in America as they struggle to resolve the ever-present inner conflict about what it means to be an American and a Muslim, while also examining the Muslim-American identity at both personal and political levels.
