Publishers Weekly bestseller · A joyful and accessible homeschool guide to making learning a part of everyday life Parents who are deeply invested in their children's education can be hard on themselves and their kids. When exhausted parents are living the day-to-day grind, it can seem impossible to muster enough energy to make learning fun or interesting. How do parents nurture a love of learning amid childhood chaos, parental self-doubt, the flu, and state academic standards? In this book, Julie Bogart distills decades of experience--homeschooling her five now grown children, developing curricula, and training homeschooling families around the world--to show parents how to make education an exciting, even enchanting, experience for their kids, whether they're in elementary or high school. Enchantment is about ease, not striving. Bogart shows parents how to make room for surprise, mystery, risk, and adventure in their family's routine, so they can create an environment that naturally moves learning forward. If a child wants to pick up a new hobby or explore a subject area that the parent

knows little about, it's easy to simply say "no" to end the discussion and the parental discomfort, while dousing their child's curious spark. Bogart gently invites parents to model brave learning for their kids so they, too, can approach life with curiosity, joy, and the courage to take learning risks. With this book as your guide, you'll learn how to: Look beyond the labels, and better understand the diversity of ELs, English language proficiency levels, and sociopolitical influences Teach and assess through

reader's workshop, recognizing where comprehensible input fits in and adapting recurring features like support, choice, conferencing, and academic conversations Teach and assess through writer's workshops, including modifications to quick-writes, minilessons, conferencing, sharing, and more Teach through structures and community with classroom schedules and behavior norms, and activities like All About Me Paragraphs and Six Things You Need to Know About Me Listicles Embrace identity in inquiry cycles via research and family interviews, mentor texts and essays, pictorial autobiographies, memory paragraphs, and more Answer your own FAQs such as How do I teach students if I don't know their language? What about grammar? How do I teach the grade-level ELA standards while I teach the language? "As you read this book," Mandy and Holly write, "our hope is that you will begin to see your students as multilinguals—people who already have language as well as a wealth of knowledge and are just adding English to that great repertoire."
