last twenty years, George Saunders has been teaching a class on the Russian short story to his MFA students at Syracuse University. In *A Swim in a Pond in the Rain*, he shares a version of that class with us, offering some of what he and his students have discovered together over the years. Paired with iconic short stories by Chekhov, Turgenev, Tolstoy, and Gogol, the seven essays in this book are intended for anyone interested in how fiction works and why it's more relevant than ever in these turbulent times. In his introduction, Saunders writes, “We’re going to enter seven fastidiously constructed scale models of the world, made for a specific purpose that our time maybe doesn’t fully endorse but that these writers accepted implicitly as the aim of art—namely, to ask the big questions, questions like, How are we supposed to be living down here? What were we put here to accomplish? What should we value? What is truth, anyway, and how might we recognize it?” He approaches

the stories technically yet accessibly, and through them explains how narrative functions; why we stay immersed in a story and why we resist it; and the bedrock virtues a writer must foster. The process of writing, Saunders reminds us, is a technical craft, but also a way of training oneself to see the world with new openness and curiosity. *A Swim in a Pond in the Rain* is a deep exploration not just of how great writing works but of how the mind itself works while reading, and of how the reading and writing of stories make genuine connection possible. In this gorgeous companion to the acclaimed *Over and Under the Snow and Up in the Garden and Down in the Dirt*, Kate Messner and Christopher Silas Neal bring to life a secret underwater world. In this book, readers will discover the plants and animals that make up the rich, interconnected ecosystem of a mountain pond. Over the pond, the water is a mirror, reflecting the sky. But under the pond is a hidden world of

minnows darting, beavers diving, tadpoles growing. These and many other secrets are waiting to be discovered...over and under the pond. "A Trip Around The Pond" is the story of Georgette Mae's fanciful search for the City of Love-Paris. After complaining of boredom, Georgette's Granny encourages her to spend her day traveling around the pond. Along the way, she encounters many adventures. Beautifully written and illustrated, "A Trip Around The Pond" captures the innocent heart and vivid imagination of a little girl's quest to find Paris. In his stunning new wordless picture book, Geraldo Valério explores the nature of true friendship and love when a swan invites a boy and his dog on a ride through a shimmering pond. "Color photos and simple text describe animals and their adaptations to a pond habitat"-- Provided by publisher. A 2018 Caldecott Honor Book that Kirkus Reviews calls "a must-read for our times," *A Different Pond* is an unforgettable story

about a simple event - a long-ago fishing trip. Graphic novelist Thi Bui and acclaimed poet Bao Phi deliver a powerful, honest glimpse into a relationship between father and son - and between cultures, old and new. As a young boy, Bao and his father awoke early, hours before his father's long workday began, to fish on the shores of a small pond in Minneapolis. Unlike many other anglers, Bao and his father fished for food, not recreation. A successful catch meant a fed family. Between hope-filled casts, Bao's father told him about a different pond in their homeland of Vietnam. Thi Bui's striking, evocative art paired with Phi's expertly crafted prose has earned this powerful picture book six starred reviews and numerous awards. An irreverent trip through American culture by a critic who "cracks jokes as easily as one would crack walnut shells" (Washington Post). Americans have long been fascinated with the oddness of the British, but the English, says literary critic

Terry Eagleton, find their transatlantic neighbors just as strange. Only an alien race would admiringly refer to a colleague as "aggressive," use superlatives to describe everything from one's pet dog to one's rock collection, or speak frequently of being "empowered." Why, asks Eagleton, must we broadcast our children's school grades with bumper stickers announcing "My Child Made the Honor Roll"? Why don't we appreciate the indispensability of the teapot? And why must we remain so irritatingly optimistic, even when all signs point to failure? On his quirky journey through the language, geography, and national character of the United States, Eagleton proves to be at once an informal and utterly idiosyncratic guide to our peculiar race. He answers the questions his compatriots have always had but (being British) dare not ask, like why Americans willingly rise at the crack of dawn, even on Sundays, or why we publicly chastise cigarette smokers as if

we're all spokespeople for the surgeon general. In this pithy, warmhearted, and very funny book, Eagleton melds a good old-fashioned roast with genuine admiration for his neighbors "across the pond." A water strider darts across a pond, its feet dimpling the surface tension; a giant water bug dives below, carrying his mate's eggs on his back; hidden among plant roots on the silty bottom, a dragonfly larva stalks unwary minnows. Barely skimming the surface, in the air above the pond, swarm mayflies with diaphanous wings. Take this walk around the pond with Gilbert Waldbauer and discover the most amazingly diverse inhabitants of the freshwater world. In his hallmark companionable style, Waldbauer introduces us to the aquatic insects that have colonized ponds, lakes, streams, and rivers, especially those in North America. Along the way we learn about the diverse forms these arthropods take, as well as their remarkable modes of life—how

they have radiated into every imaginable niche in the water environment, and how they cope with the challenges such an environment poses to respiration, vision, thermoregulation, and reproduction. We encounter the caddis fly larva building its protective case and camouflaging it with stream detritus; green darner dragonflies mating midair in an acrobatic wheel formation; ants that have adapted to the tiny water environment within a pitcher plant; and insects whose adaptations to the aquatic lifestyle are furnishing biomaterials engineers with ideas for future applications in industry and consumer goods. While learning about the evolution, natural history, and ecology of these insects, readers also discover more than a little about the scientists who study them. Combining personal reminiscence with reflections on the history of the place over the years and through the seasons, for the first time this collection brings together writers' impressions

of the Pond. From the author of *A Field Guide to Getting Lost* comes a heartwarming, “emotionally perceptive” (Kirkus Reviews) story about new beginnings, burgeoning friendships, and finding your flock. Callie can’t wait for her new life to start. After a major friendship breakup in San Diego, moving overseas to Scotland gives her the perfect chance to reinvent herself. On top of that, she’s going to live in a real-life castle! But as romantic as life in a castle sounds, the reality is a little less comfortable: it’s run-down, freezing, and crawling with critters. Plus, starting off on the wrong foot with the gardener’s granddaughter doesn’t help her nerves about making new friends. So she comes up with the perfect solution: she’ll be homeschooled. Her parents agree, on one condition: she has to participate in a social activity. Inspired by a journal that she finds hidden in her bedroom, Callie decides to join a birding club. Sure, it sounds unusual, but at least it’s not

sports or performing. But when she clashes with the club leader, she risks losing a set of friends all over again. Will she ever be able to find her flock and make this strange new place feel like home? Describes a variety of pond animals, including the mayfly, red-winged blackbird, and painted turtle. Benni Harper—spirited ex-cowgirl, quilter, and folk art expert—finds herself on the trail of a storybook killer in this mystery from Agatha Award-nominee Earlene Fowler. Hoping to relax after solving a murder in Wichita, Kansas, Beni and her new husband Gabe Ortiz are back in San Celina, California. But while Benni is jogging in the park, she happens upon the dead body of a library storyteller. It’s an odd and disturbing scene—the woman is still dressed in her Mother Goose costume, lying facedown in the lake. Benni’s investigation takes her inside the Storyteller’s Guild, where she finds out that Mother Goose was telling more than fairy tales. She was capable of airing

the kind of secrets that destroy lives—and inspire revenge...

Newbery Honor winner Janet Taylor Lisle's gorgeous and profound new novel about a pivotal summer in two girls' lives explores the convictions we form, the judgments we make, and the values we hold. The pond is called Quicksand Pond. It's a shadowy, hidden place, full of chirping, shrieking, croaking life. It's where, legend has it, people disappear. It's where scrappy Terri Carr lives with her no-good family. And it's where twelve-year-old Jessie Kettel is reluctantly spending her summer vacation. Jessie meets Terri right away, on a raft out in the water, and the two

become fast friends. On Quicksand Pond, Jessie and Terri can be lost to the outside world—lost until they want to be found. But a tragedy that occurred many decades ago has had lingering effects on this sleepy town, and especially on Terri Carr. And the more Jessie learns, the more she begins to question her new friendship—and herself. Ponds are vital oases for nature. They are nursery grounds, feeding stops and bathing spots. They are genetic superhighways and vibrant ecosystems each brimming with life, interactions and potential. And they are for everyone. In *The Wildlife Pond Book*, Jules Howard offers a fresh perspective on ponds and encourages gardeners to reach for a garden spade and do something positive to benefit our shared neighbourhood nature. As well as offering practical tips and advice on designing, planting up and maintaining your pond, Jules encourages readers to explore the wildlife that colonises it with a torch, a microscope or a good old-fashioned pond-

dipping net. With a foreword by award-winning wildlife-gardening author, Kate Bradbury, this helpful new guide includes a section outlining the hundreds of organisms that may turn up in your pond and is packed with creative ideas that have been tried and tested by author Jules Howard, an avid pond-builder, prolific pond-dipper and passionate voice for freshwater conservation for more than fifteen years. So, no matter how big your outdoor space is, *The Wildlife Pond Book* is the guide you need to create your very own haven for nature. 'The Pig in the Pond' features a very hot and bothered pig! Narrated by comedian Harry Enfield, this is sure to be a favourite picture book and CD pack for children to read and listen to. Although others have written eloquently on the relationship of water to built form, until now no one has investigated the swimming, pool as a quintessentially modern and American space, reflecting America's infatuation with hygiene, skin, and

recreation. In *The Springboard in the Pond*, Thomas van Leeuwen looks at a familiar hole - the domestic swimming pool - and discovers an icon indispensable to the reading of twentieth-century modernism. At one level, the book is a rereading of modern architecture that will leave that story permanently altered. At another level, it is the story of the origin and evolution of the private swimming pool as a building type and cultural artifact. And at still another level, it is a material philosophy of water. Van Leeuwen explores the human relationship to water from a variety of viewpoints: social, religious, artistic, sexual, psychological, technical, and above all architectural. From the creators of the *Wee Gallery* come these beautifully illustrated bath books that magically change color when you dip them in water. *Color Me: Who's in the Ocean?* introduces children to a range of sea creatures that include a fish, an octopus and a starfish. Squeezable and lightweight,

each black-and-white creature transforms in a child's hands, guaranteeing hours of bathtime fun. The Pond is a touching picture book about a young boy, and his family, overcoming the loss of his father by spending time at a small pond in the garden. This emotional volume is brimming with colourful, nature imagery and will teach children not only about death and loss, but about the importance of the natural world. An overheated pig who doesn't swim, throws himself into a pond, throwing the farmyard into an uproar. But on this hot summer day, the pig on Neligan's farm sits by the pond feeling envious of the ducks and geese floating in the cool water. Finally, when she can endure the heat no longer-- Splash!--this sweltering pig takes a dive, throwing the entire farm into an uproar. "A sharp, funny, and eccentric debut ... Pond makes the case for Bennett as an innovative writer of real talent. ... [It]reminds us that small things have great depths."-New York Times Book Review

"Dazzling...exquisitely written and daring ." -O, the Oprah Magazine Immediately upon its publication in Ireland, Claire-Louise Bennett's debut began to attract attention well beyond the expectations of the tiny Irish press that published it. A deceptively slender volume, it captures with utterly mesmerizing virtuosity the interior reality of its unnamed protagonist, a young woman living a singular and mostly solitary existence on the outskirts of a small coastal village. Sidestepping the usual conventions of narrative, it focuses on the details of her daily experience—from the best way to eat porridge or bananas to an encounter with cows—rendered sometimes in story-length, story-like stretches of narrative, sometimes in fragments no longer than a page, but always suffused with the hypersaturated, almost synesthetic intensity of the physical world that we remember from childhood. The effect is of character refracted and ventriloquized by

environment, catching as it bounces her longings, frustrations, and disappointments—the ending of an affair, or the ambivalent beginning with a new lover. As the narrator's persona emerges in all its eccentricity, sometimes painfully and often hilariously, we cannot help but see mirrored there our own fraught desires and limitations, and our own fugitive desire, despite everything, to be known. Shimmering and unusual, *Pond* demands to be devoured in a single sitting that will linger long after the last page. Poems and illustrations celebrate a day at the pond. Follow the adventures of a wriggly tadpole as it grows up and encounters enormous fish, fluffy ducklings and shimmering dragonflies before turning into a fully grown frog. A lyrical narration and breathtaking illustrations transport us to the world of a pond with all its sights, sounds, and pulsing life. The red-winged blackbird spreads his tail and sings his hello morning song; he has sung it since the

bright and misty world began. When the soft pink of the dawn sun starts peeking over the pond, a new day has begun for all the animals who live in it and around its watery edges. The friendly duck family, the mysterious water striders, and the busy beaver are a few of the many fascinating and familiar animals included in this glowing poetic tribute to the lively ecosystem of the pond. A companion to *In the Sea*, *In the Wild*, *On the Farm*, and *In the Woods*, *At the Pond* brings readers to the pond's sun-dappled shores, pairing David Elliott's witty and enchanting animal poems with Amy Schimler-Safford's luminous and evocative scenes of pond life. Back matter notes about the animals and plants will further captivate young nature lovers. Networking requires you to "kiss a lot of frogs" (i.e., meet a lot of people) to find your "princes"—those precious few who can make a difference in your life. In the Small, Small Pond is a 1994 Caldecott Honor Book. Pigs don't swim, or so it's said. But on one of the hottest days of the summer, the pig on Neligan's farm sits by the pond feeling envious of the ducks and the geese floating in the cool water. Finally, when she can endure the heat no longer—splash!—this sweltering pig takes a dive, throwing the entire farm into an uproar. It isn't long, however, before the refreshing idea catches on, and the pig finds that she's got company! This spirited tale with its exuberant illustrations is sure to be a hit with all those young and old who ever wanted to take the plunge. Text by Gerry Badger, Toby Jurovics. Ha Jin's

themes of personal honour in the face of political rectitude are carried forward here in his first novel, a close, unsentimental depiction of life in a small factory town; the manoeuvring, posturing, petty jealousies and injustices of an ordinary man who tangles with party bosses.
